Research

UNC School of Medicine:

Student Researcher: Department of Obstetrics and Gynecology **May 2016-Present**
Preceptor: Abby Normal, M.D.
Funding: Holderness Medical Fellowship
Description: Brief description of research project and role; do not be scared of details!

Holderness Research Fellow **Summer 2013**
Association of FUT Polyp and Colorectal Cancer
Preceptor: R.U. Crazy, M.D. Director of Research
Funding: Holderness Medical Fellowship
Description: The North Carolina Colon Cancer Study, a large population-based case control study of colon cancer, provided several hundred samples of colorectal polyps and carcinomas for analysis. The specific objective of this project involved determining expression of the FUT3/FUT6 fucosyltransferases in the cases and controls and also identifying specific mutations in these genes. Attempted to determine potential interactions of different genotypes with patient NSAID use, diet, and race. This ultimately will provide some information relating the type of mutation, if any, in the FUT genes to the progression of colorectal carcinoma.

UNC Chapel Hill:

Title of Project **Dates**
Preceptor: Name and Department
Description: Briefly describe project. Cytoreductive surgery with intraperitoneal hyperthermic chemotherapy for advanced gastric cancer

Title of Project **Dates**
Preceptor: Name and Department
Description: Performed a retrospective chart review of patients with gastric cancer to compare survival in patients receiving cytoreductive surgery with intraperitoneal hyperthermic

chemotherapy to those receiving the surgical and chemotherapeutic standard of care.

Student Researcher

Dates

Assistant, Department of Chemistry
Brief description of research and duties.

UNC Chapel Hill:

Phi Beta Kappa

Dates

UNC CH: University Honors Program

Dates

UNC CH: Class of 1938 Summer Study Abroad Fellowship

Dates

Self-financed travel to Peru to assist physicians from the United States and Peru in healthcare facilities (i.e., emergency & family medicine, pediatrics, surgery, rural mountainside house calls); observed healthcare professionals give disease prevention presentations to high school students; administered fluoride treatments to grade school students.

Curriculum Enrichment

UNC SOM:**Rural Health Scholarly Concentration**

Selected to complete program designed to provide students with a more in-depth experience with caring for rural and underserved populations, allowing them to gain a deeper knowledge of the social determinants of health and explore potential remedies that address these issues on a local, regional and national scale. Provides opportunity for engagement in community health and a more in-depth experience with Latino and Hispanic populations. Faculty members work with students throughout the four-year program and assist in designing and completing a capstone project.

Comprehensive Advanced Medical Program of Spanish (CAMPOS)**2012-2017**

Selected to participate in rigorous enrichment program for entering students who have intermediate-to-advanced Spanish fluency, with the goal of graduating students who can independently care for the increasing number of Latino patients in North Carolina. CAMPOS students are encouraged to take special electives and to participate in community service outreach to the Hispanic community and, when possible, they are placed for clinical assignments in communities with high numbers of Spanish-speaking patients.

The Healer's Art Elective

Elected to complete Department of Family Medicine's non-credit Healer's Art course, modeled after Dr. Rachel Remen's curriculum, which takes a highly innovative, interactive, contemplative and didactic approach to enabling students to perceive the personal and universal meaning in their daily experience of medicine.

UNC Chapel Hill:**Study Semester Abroad: Mexico****Date**

During spring of junior year spent semester studying Spanish in rural Mexico.

Service/Activities**UNC SOM:****PATCH: Propelling Adolescents Toward Careers in Health Care****Dates**

Participated in program of partnership between CMS Title I High Schools, Carolinas Medical Center, and the greater Charlotte community in order to expose Title I high school students to the various professions available in healthcare through a highly interactive mentorship and professional development experience. The PATCH Program is a 9-week curriculum, held on consecutive Saturdays in the early spring. Participants spend the day shadowing healthcare professionals at Carolinas Medical Center (CMC), learning how to conduct and present scientific research, and engaging in other personal and professional development experiences.

Laboratory Coordinator, People's Clinic of Bloomer Hill**Dates**

Coordinated laboratory services at this monthly free clinic staffed by students and clinicians from UNC.

Student Health Action Coalition (SHAC)**Dates**

- **Clinic Coordinator:** oversaw training and scheduling of all clinic medical student volunteers and attending physicians.
- **Medical Student Volunteer:** evaluated patients and served as Spanish translator at free, student-run clinic for Chapel Hill-Carrboro community.
