Uses and Disclosures of PHI for Marketing

I. Description

UNCHCS will use and disclose protected health information (PHI) for marketing purposes only as permitted by the federal privacy regulations. UNCHCS shall obtain an authorization from patients for any use or disclosure of PHI for purposes of Marketing in accordance with this policy.

Included within the scope of this policy are the patient care programs of the UNC School of Medicine (UNCHCS). As a result, this policy shall apply to all UNC SOM personnel, including but not limited to faculty, staff, students, trainees, interns and volunteers who may be full-time, part-time, paid or unpaid who create, store, transmit, access or use any patient information in support of clinical purposes for UNCHCS or any other healthcare entity.

II. Policy

A. Authorization for Marketing Required. The UNCHCS Authorization to Use or Disclose PHI for
Marketing available through UNCHCS Privacy Office must be signed by the patient before using or disclosing PHI for Marketing purposes which include:

1. Providing subsidized treatment communications to patients; or
2. Using or disclosing any information about or from the patient if the information will be used in or for marketing purposes, including, but not limited to, patient photographs and testimonials.

B. **Authorization for Marketing is not required.** The UNCHCS Authorization to Use or Disclose PHI for Marketing is not required when the marketing activity consists of:

1. A face-to-face communication to a patient; or
2. A promotional gift of nominal value given to the patient.

C. **Marketing Authorization Language.** If Marketing involves the direct or indirect remuneration, including but not limited to gifts, fees, payments in cash or in kind, subsidies or other economic benefits paid to UNCHCS or any UNCHCS Facility from a third party, the authorization must state that such remuneration is being paid by the third party.

D. **When Payment is Received for Marketing.** If a Marketing communication involves direct or indirect reimbursement or payment from a third party, the authorization form signed by the patient allowing the use of his or her PHI must disclose such remuneration resulting from the Marketing, and must be approved by the UNCHCS Privacy Office (or appropriate UNCHCS Facility Privacy Office) in advance. Please contact the UNCHCS Privacy Office (or appropriate UNCHCS Facility Privacy Office) if payment is being received for a Marketing communication sent by or on behalf of UNCHCS or a UNCHCS Facility.

E. **Health-based Marketing Communications.** If a UNCHCS Facility engages in any marketing communications based on a patient's health status, the UNCHCS Facility must incorporate language similar to the following into the marketing communication:

“This material has been presented to you because [the UNCHCS Facility] has determined that the products/services offered herein would be beneficial to your health, particularly by [insert explanation as to how the product or services relate to the health of the Individual targeted]"

F. **Use the UNCHCS Authorization to Use or Disclose PHI for Marketing form** available through UNCHCS Privacy Office to obtain written authorizations from patients prior to:

- Providing subsidized treatment communications to patients, if the communication will not be made face-to-face by someone from UNCHCS or does not consist of a promotional gift of nominal value provided by UNCHCS;
- Using or disclosing any information about or from the patient if the information will be used in or for marketing purposes, including, but not limited to, patient photographs and testimonials.

G. **Immediately report** the UNCHCS Privacy Office (or appropriate UNCHCS Facility Privacy Office) any communications from patients and others who have requested to stop receiving future marketing communications to ensure that no more communications are sent.

H. **Maintain Documentation.** Maintain signed authorization forms from those persons who have specifically agreed to receive more specific marketing communications, based on their written authorization for at least six years.

**III. Definitions**

**Marketing** – means communications about our health services that encourages recipients of the
communication to purchase or use our services. **Marketing does not include the following activities:**

1. To provide refill reminders or otherwise communicate about a drug or biologic that is currently being prescribed for the individual. UNCHCS Facilities may only receive financial remuneration for making the communication that is reasonably related to Facility’s cost of making the communication.

2. UNCHCS Facilities may use PHI without an authorization to make communications for the following treatment and health care operation purposes, but may not receive financial remuneration for making the communication:
   - For treatment of an individual by a health care provider, including case management or care coordination for the individual, or to direct or recommend alternative treatments, therapies, health care providers, or settings of care to the individual;
   - To describe a health-related product or service (or payment for such product or service) that is provided by, or included in a plan of benefits of, the covered entity who is making the communication, including communications about: the entities participating in a health care provider network or health plan network; replacement of, or enhancements to, a health plan; and health-related products or services available only to a health plan enrollee that add value to, but are not part of, a plan of benefits; or
   - For case management or care coordination, contacting of individuals with information about treatment alternatives, and related functions to the extent these activities do not fall within the definition of treatment.

**Financial remuneration** – means direct or indirect payment from or on behalf of a third party whose product or service is being described. Direct or indirect payment does not include payment for treatment of an individual. Financial remuneration does not include "in-kind" benefits. Financial remuneration in this context does not include remuneration for purposes other than for making the communication.
