- 12) You will need to fill out the required information on the next screen.
- For “Entity”, select one of the UNCMC options.
 - For Attending information, I usually fill in my own name and contact information.

- c. For “Urgency”, select STAT for images you would like within 24 hours.
 - d. Fill out the UNC EPIC patient information and diagnosis.
 - e. Under “Clinical reason” select “Continued Care”, otherwise the image will be sent to a radiologist to read.
 - f. For “comparison type”, I typically select “comparison to future”
 - g. After all required fields entered, click on the “Nominate” button.
- 13) You can check the status of the image request by searching for images with the patient’s last name and the status will be displayed as pictured below. It will say “nominated” for images that have been sent for upload but have not been completed yet, “Pushed” for images sent to Syngo or images that have been nominated to PACS and successfully uploaded. You can also check the patient’s results review tab in EPIC if the images were nominated.
