

**ALL** patients (regardless of language) can use Interpreter Services to facilitate “**Virtual Visits.**”

Open Service Hub

Select Virtual  
Visitor  
Communication

A screenshot of a digital form for creating a service request. The form includes a 'Priority' dropdown menu set to 'Immediate', a 'Type' dropdown menu with 'Virtual Visitor Communication' selected (indicated by an orange arrow), and a list of options: 'Face-To-Face', 'Phone Call', 'Remote Video', 'Translation', 'Interpreter Rounds', and 'Vocera'. Below the list is a text area for 'Notes' with a '(500 chars left)' indicator. At the bottom, there are two buttons: 'Discard' (grey) and 'Create Request' (yellow).

Interpreter will come to bedside and use FaceTime or Google Duo to connect families to their loved ones.
