

# How to Create a Referral to the Peripheral Nerve Program

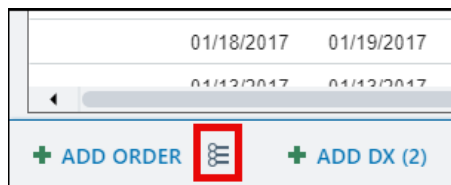

This reference guide is for UNC Health physicians who want to refer to the Peripheral Nerve Program. The referral can be found in the Regional Provider Preference List. If you already follow your Regional Provider Preference List, you can search for the order in Orders Search:

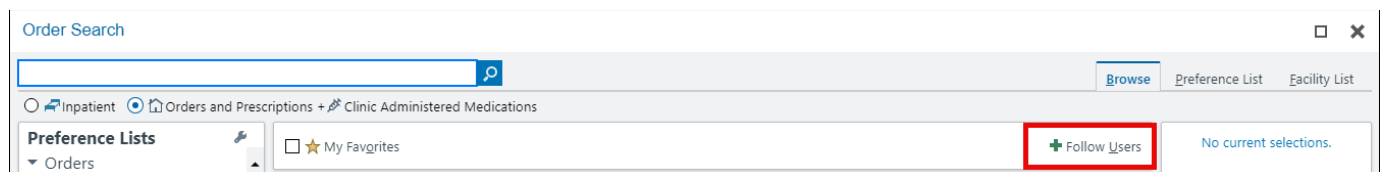

If you do not follow your Regional Provider Preference List, please follow the steps below to find the referral.

## Find your Regional Preference List

1. From within an Epic Encounter, **click the preference list icon** on the visit toolbar.

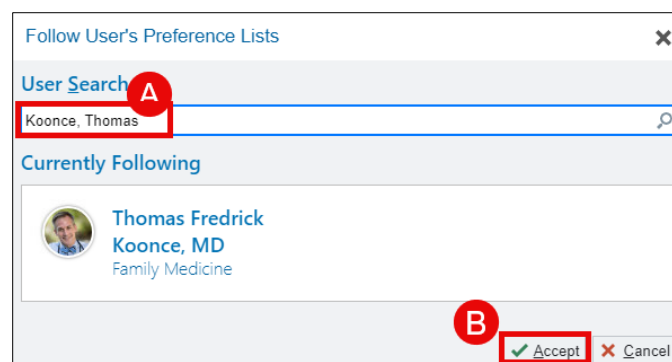

2. In the pop-up window for Order Search, **click Follow Users**.

3. Use the user search to (A) **Search for your Regional Referral Preference List Owner**. (B) Once you have selected the appropriate user, **click accept**.

*\*Note: If you do not know your regional preference list owner, check [here](#). This example shows the Triangle Orange/Roxboro/Yanceyville Region.*

## Select the Peripheral Nerve Program Referral

1. In the left column, **expand the menu for Referrals menu and your Region.**

Order and SmartSet Search
