

Department of Pharmacology Graduate Students present
The Luminary Scientist - Distinguished Lecture Series

"Mechanisms of Malignant Progression"

Dr. Robert A. Weinberg

- Daniel K. Ludwig Professor of Biology at MIT
- Founding member of the Whitehead Institute for Biomedical Research

**Tuesday, December 12, 2006
12:00 p.m. MBRB G202**

- Discovered the first human oncogene, Ras, and the first tumor suppressor gene, Rb.
- Current research focuses on determining the mechanisms responsible for cell senescence, investigating the influence of the stroma on the biology of the tumor, and identifying metastatic determinants
- Winner of the Landon-AACR Prize for Basic Cancer Research (2006)
- Member of the US National academy of Sciences
- Winner of the National Medal of Science (1997)
