

UNC  
SCHOOL OF MEDICINE

Department of Pharmacology  
Carolina Summer Fellowship Program  
End of Program Talks

**Tuesday, 7/25 @ 10 AM in 4007 GMB**

McKenzie O'Hara '18, UNC, Biology (Der Lab) *"Identifying novel kinases that regulate MYC protein stability"*

Adelaide Cooke '18, UNC, Biology (Der Lab) *"Biochemical Characterization of KRAS 4A"*

Marielle Bond '18, UNC, Biology (Cox Lab) *"What is the role of YAP1 in melanoma cell lines dependent on mutant NRAS and on the MAPK pathway?"*

Zach Smith '18, Michigan State University, Biochemistry (Schisler Lab) *"Interactions between CHIP and phosphorylated HSP70"*

Sam Curry, '20 Morehouse College, Biology (Graves Lab) *"Investigating the role of BTK in drug resistance"*

Adam Graves '18, UNC, Biology (Graves Lab) *"Investigating the Effects of Gator01 on Triple-Negative Breast Cancer"*

Ar-Ryon Garrison '20, Clark Atlanta University, Biology (Nicholas Lab) *Role of the lipid transporter PqiABC in import of LpxC inhibitors into Neisseria Gonorrhoeae*
