Refund / Substitution Policy: In the event of a cancellation, we must be notified 48 business hours in advance of the event in order to process a refund or voucher. An administrative fee of 30% will be deducted if a refund is required. Substitutions are encouraged. Please call us at 336-832-8025.

ADA Statement: It is the policy of the Greensboro AHEC not to discriminate against any person on the basis of disabilities. If you need services or auxiliary aids mentioned in this Act in order to participate fully, please call us at 336-832-8025 at least 3 weeks in advance of the program.

Handouts/Online Certificates
Handouts will be available online one week prior to the seminar and for one week following. To access, go to: gahec.org and mouse over “Continuing Professional Development” and click on “Handouts and Certificates”. After you attend, you can again log on to complete the program evaluation and receive your certificate.
This symposium will highlight current innovations in the evaluation and management of mild traumatic brain injury (mTBI). This program is designed to enhance professionals understanding of an interdisciplinary approach in the diagnosis, assessment, and treatment of non-sports related concussions. This activity is offered by Greensboro AHEC in collaboration with the UNC Center for Rehabilitation Care and the Department of Physical Medicine and Rehabilitation.

Learning Objectives

- Describe the similarities and differences between sports related concussion (SRC) vs non sports related concussion (nSRC)
- Identify key components of medical assessment of nSRC
- Outline the scope of rehabilitation therapy services and the referral process for patients with nSRC
- Summarize visual assessment and treatment as it relates to functional performance in life skills after concussion
- Summarize the understanding of neuropsychology in nSRC management and define neuropsychological intervention
