Dr. Hudson is a physician that is board certified in both Obesity Medicine and Physical Medicine & Rehabilitation. She has won several awards for her research and teaching excellence. Her interests include obesity medicine and weight management, lifestyle medicine, health coaching, and general rehabilitation. As an obesity medicine specialist and rehabilitation physician (physiatrist), Dr. Hudson aims to optimize health and function of individuals through a patient-centered continuum of care, with the goal of improving the whole quality of life for each individual.

The UNC Center for Rehabilitation Care and UNC Hospitals Spine Center both offer a comprehensive, multidisciplinary approach to the diagnosis and treatment of obesity, musculoskeletal and neurological diseases, with a commitment to evidence-based practice, outcomes enhancement, and financial stewardship. Our locations on Fordham Boulevard and Raleigh Road in Chapel Hill is conveniently located close to I-40 and to the UNC Medical Center.

About Dr. Hudson

Angela Lipscomb-Hudson, MD, evaluates each patient’s health and wellness, creating an individualized wellness plan, focusing on weight loss.
