

Educational pathways to increase Diversity in Genomics

Summer research program at UNC Chapel Hill for undergraduate students who are curious about careers in genomics

- Unique 2-year program structure
 - VIRTUAL 3-week program June 6-24, 2022
 - In-person dates for summer 2023 TBD
- \$1,000 stipend for summer 2022
- Eligibility: undergraduate students who are underrepresented in science (individuals from underrepresented racial and ethnic groups, individuals with disabilities, and individuals from disadvantaged backgrounds). Students must be U.S. citizens or permanent residents.

EDGE training includes:

Careers in genomics
Ethical, legal, and social issues
Gene-disease connections
Mentored research experience
Science communication
Professional development
