

## Proteomics Core Facility Sample Submission Form

- Before sending samples, contact us so that we can discuss the best approach for your project.
  - For protein ID inquiries, contact Nely Dicheva (919.843.2589 or dicheva@ad.unc.edu)
  - For all other inquiries, contact Laura Herring (919.966.4681 or laura\_herring@med.unc.edu)
- Next, fill out this form & follow the sample submission instructions at: proteomics.unc.edu
  - Please schedule a drop-off time or inform us of when you ship your samples.

Submission date

**Billing Information**

PI Name Email

Address

Business Unit Fund Source

Department ID PC Unit Project ID

PO # (if applicable)

**User Information**

Name Phone

Email Department

**Sample Information**

	Sample Name	Biological Source	Expression Host (species)	Estimated protein amount (µg)	Sample volume (µl)	Sample Type
1						
2						
3						
4						
5						
6						
7						
8						

**\*\*For more than 8 samples, please email a spreadsheet containing all sample information\*\***

For in-solution samples, buffer composition:

Type of analysis (check one):

- |                              |                          |
|------------------------------|--------------------------|
| Protein identification       | Protein characterization |
| Phosphorylation site mapping | Proteomic profiling      |
| Protein binding partner ID   | Quantitative proteomics  |
| Other (specify below)        | Intact mass analysis     |

Please provide protein accession number(s) below or email the sequence (if not in a database).

List any additional sample information or type of analysis you are requesting.
