

Working for Recovery: Implementing the Individual Placement and Support (IPS) Supported Employment Model

24th ANNUAL STEP SYMPOSIUM

The William and Ida Friday Center

Saturday, April 29, 2017

Recovery is a journey, and for many people with severe mental illness, returning to work is an essential part of that journey.

At the 24th Annual STEP Symposium, we will present the importance of the Individual Placement and Support (IPS) model, which is the evidence-based approach to helping people succeed in competitive employment. Mental wellness and recovery go well beyond medications and therapy; as with housing, employment is a critical part of many individuals' recovery plans.

Objectives: The information presented at this educational activity should improve your ability to:

- Discuss the key aspects of IPS Supported Employment.
- Review successes and challenges of IPS implementation in NC.
- Understand how employment can be as important to one's recovery as other more traditional therapies.

Audience: Psychiatrists, social workers, psychologists, state mental health authorities, LME-MCO staff, other mental health professionals, persons living with mental illness, family members, and advocates.

AGENDA

- 8:00 – 8:30 a.m. Registration, Continental Breakfast (Atrium)
- 8:30 – 8:45 a.m. Introduction (Dogwood Room)
John H. Gilmore, MD
