

**Note: this is a sample titration schedule. Adjustments may be needed based on individual tolerability; we recommend a slower titration when there are greater than mild side effects. We also recommend consolidating to nighttime dosing in cases of excessive daytime sedation OR difficulty with optimal medication adherence. Target dose of 300 mg is the typical minimum dose needed to achieve therapeutic effect, although this varies widely due to individual variability.**

<b>UNC NCCN Outpatient Clozapine Titration Schedule</b>			
<b>Week 1</b>	<b>AM Dose</b>	<b>PM Dose</b>	<b>Total Dosage</b>
Day 1	0	12.5	12.5
Day 2	12.5	12.5	25
Day 3	0	25	25
Day 4	0	25	25
Day 5	25	25	50
Day 6	25	25	50
Day 7	25	25	50
<b>Week 2</b>	<b>AM Dose</b>	<b>PM Dose</b>	<b>Total Dosage</b>
Day 8	25	50	75
Day 9	25	50	75
Day 10	25	50	75
Day 11	50	50	100
Day 12	50	50	100
