

**INDIVIDUAL AND
GROUP THERAPY**

AGENDA

What is the purpose of therapy

What we do to support clients

How we support a team-based approach

How the team can support our work?

WHAT IS THE PURPOSE OF THERAPY?

HOW WE SUPPORT CLIENTS

A TEAM-BASED APPROACH

- Developing relapse prevention plans
- Support others on the team. For example:
 - Support SEEs work by helping clients practice for job interviews in a role play
 - Support psychiatry by helping client develop a system for taking medications consistently (e.g., reminders, eliciting help from a support person, pairing with a daily activity)

HOW THE TEAM CAN SUPPORT OUR WORK

THANK YOU!
