

## Something Not Quite Right?

- Do you sometimes feel confused about what is real or imaginary?
- Have you felt that things happening around you have a special meaning just for you?
- Are you feeling confused by things you hear or see?
- Have you noticed unusual coincidences or connections that others do not seem to notice?
- Do you ever feel like you just know what others are thinking or that others somehow know what you are thinking?
- Are you worried that others are talking about you or laughing at you?
- Do you think that others are trying to hurt you?
- Do you have a close relative with a psychotic disorder and you have had a decline in function over the past year?

If you have had **any** of these experiences in the past few months and are between 12-30 years old, you may be eligible to participate in a study at the PRIME Research Program. You may be eligible to receive free study related medical evaluations and monetary compensation.

**To find out if you are eligible for one or more of our studies, please take 5 minutes to complete our Online Screening Questionnaire (Go to [www.prime.unc.edu](http://www.prime.unc.edu) and click on 'Take a Simple Survey') or call us at 1-877-PRIME-19 or 843-PRIM.**
