

CAROLINA SEMINAR ON PHILOSOPHY, ETHICS AND MENTAL HEALTH

Presented by UNC Psychiatry Philosophy and Mental Health Program
Sponsored by Carolina Seminars

Dr. Josh May discusses his new book **Neuroethics: Agency in the Age of Brain Science**

Neuroethics answers ethical questions raised by brain science through captivating cases, philosophical analysis, and scientific evidence. The book covers core topics such as: free will, addiction, mental illness, brain manipulation, moral enhancement, brain images as legal evidence, the reliability of moral intuitions, and even misconduct in neuroscience.
