

CURRICULUM VITAE
GISELLE CORBIE-SMITH, MD, MSc

Education

Degrees

M.Sc. - Clinical Research
Emory University
Department of Epidemiology
1998-2000

M.D. - Medicine
Albert Einstein College of Medicine
1987-1991

B.A. - Biology and Genetics
Cornell University
College of Arts and Sciences
1982-1986

Postgraduate Training

Executive Leadership in Academic Medicine (ELAM), Drexel University, 2006-2007

Clinical Ethics Faculty Fellow, Center for Ethics in Public Policy and Professions, Atlanta GA,
1998-2000

Health Services Research Institute, Association of American Medical Colleges, Washington
DC Fellow, 1996-1998

Yale University School of Medicine, Yale-New Haven Hospital, New Haven CT
Chief Medical Resident, 1994-1995

Yale University School of Medicine, Yale-New Haven Hospital, New Haven CT
Internship /Residency, Internal Medicine, 1991-1994

Professional Experience

Associate Provost, Institute on Rural Innovation, University of North Carolina at Chapel Hill,
2019-

President, Society of General Internal Medicine, 2018-

President Elect, Society of General Internal Medicine, 2017-2018

Director, UNC Center for Health Equity Research, University of North Carolina School of
Medicine, Department of Social Medicine, Chapel Hill, NC, 2013-

Kenan Distinguished Professor, Departments of Social Medicine and Medicine, University of North Carolina at Chapel Hill, School of Medicine, 2013-

Professor with tenure, Department of Social Medicine, University of North Carolina at Chapel Hill, School of Medicine, 2011-2013

Professor with tenure, Department of Medicine, Division of General Medicine and Clinical Epidemiology, University of North Carolina at Chapel Hill, School of Medicine, 2011-2013

Associate Professor of Epidemiology, University of North Carolina at Chapel Hill, School of Public Health, 2007 - 9/13/2010

Associate Professor with tenure, Department of Social Medicine, University of North Carolina at Chapel Hill, School of Medicine, 2004-2010

Associate Professor with tenure, Department of Medicine, Division of General Medicine and Clinical Epidemiology, University of North Carolina at Chapel Hill, School of Medicine, 2004-2010

Adjunct Associate Professor of Epidemiology and Biostatistics, University of North Carolina at Chapel Hill, School of Public Health, 2004

Senior Research Fellow, Cecil G. Sheps Center for Health Services Research, University of North Carolina at Chapel Hill, 2004-

Assistant Professor, Department of Social Medicine, University of North Carolina at Chapel Hill, School of Medicine, 2000 - 2004

Co-Director, Program on Health Disparities, Cecil G. Sheps Center for Health Services Research, University of North Carolina at Chapel Hill, 2003

Research Fellow, Cecil G. Sheps Center for Health Services Research, University of North Carolina at Chapel Hill, 2001 - 2003

Faculty, Robert Wood Johnson Clinical Scholars Program, University of North Carolina at Chapel Hill, 2002

Assistant Professor, Department of Medicine, Division of General Medicine and Clinical Epidemiology, University of North Carolina at Chapel Hill, School of Medicine, 2000

Adjunct Assistant Professor of Epidemiology and Biostatistics, University of North Carolina at Chapel Hill, School of Public Health, 2000

Faculty Research Associate, Institute for Minority Health Research, Rollins School of Public Health, 1998-2000

Assistant Professor of Medicine, Division of General Medicine, Emory University School of Medicine, 1995-2000

Instructor in Internal Medicine, Department of Internal Medicine, Yale University School of Medicine, 1994-1995

Hospital and Staff Appointments

Attending Physician, Carrboro Community Health Center, Piedmont Health Services, Chapel Hill, NC 2009-present

Attending Physician, Moncure Community Health Center, Piedmont Health Services, Chapel Hill, NC 2001-2005

Attending Physician, UNC Hospital, Chapel Hill, NC, 2000-present

Attending Physician, Grady Memorial Hospital, Atlanta, GA, 1995-2000

Attending Physician, Yale New Haven Hospital, New Haven, CT, 1994-1995

Attending Physician, West Haven VA Medical Center, New Haven, CT, 1994-1995

Consulting Physician, South Central Rehabilitation Center, New Haven, CT, 1994-1995

Other Employment

Student Instructor, Introduction to Clinical Medicine, Albert Einstein College of Medicine, 1990

Instructor, AIDS Education, STATS (Students Teaching AIDS to Students) and WIC (Women Infants and Children) programs, 1989

Summer Coordinator, Sophie Davis Program, 1988

Computer Consultant, The New York City Board of Education, Summer 1985, 1986-1988

Research Assistant, The Brooklyn Hospital, Department of Genetics, 1986

Medical Certification/Licensure

- Diplomat of the American Board of Internal Medicine, 2004-2024
- Diplomat of the National Board of Medical Examiners, 1992-Present
- State of North Carolina, 2000-Present
- State of Georgia, 1995-2000
- State of Connecticut, 1993-1995

Honors and Awards

Honored Lecturer, Norma Berryhill Distinguished Lecture, UNC School of Medicine, 2018

Herbert W. Nickens Award, Society of General Internal Medicine, 2016

Triangle/Triad Leadership Fellowship, UNC-Chapel Hill, Duke University, NC State University, Elon University, North Carolina A&T University, and Wake Forest University, 2014

Faculty Mentoring Award, Carolina Women's Leadership Council, 2014

IAH Academic Leadership Fellow for 2014-15, Institute for the Arts and Humanities.

Office of the Provost Engaged Scholarship Award for community-university partnership, Project GRACE, 2013

Leadership in Health Disparities Research, National Center for Minority Health and Health Disparities, National Institutes of Health, 2008

James E. Bryan Award for Public Service, University of North Carolina at Chapel Hill, Award for excellence in service to communities of North Carolina, 2007

Jefferson Pilot Fellowship in Academic Medicine, University of North Carolina at Chapel Hill, Award given to most promising junior researcher in the UNC School of Medicine, 2003

David E. Rogers Junior Faculty Education Award for "Reaching the Unreached: Research Participation and Underserved Population," 23rd Annual Meeting of the Society of General Internal Medicine, May 2000

Hugh Dwyer Award for Clinical Excellence, Yale University School of Medicine, 1995

Alpha Omega Alpha Society, Albert Einstein College of Medicine 1991

Louis and Rachel Rudin Foundation Scholarship, Albert Einstein College of Medicine, 1987-1990

"Reaching the Unreached: Research Participation and Underserved Populations," Society of General Internal Medicine, David E. Rogers Junior Faculty Education Award

Teaching Record

At University of North Carolina at Chapel Hill

Student and Faculty Mentoring in Research

My primary teaching role has been as a research mentor for junior faculty, fellows, graduate and medical students. Through my leadership of and involvement in several training programs at UNC, I have mentored trainees from a variety of disciplines and academic ranks, substantially contributing to UNC's pool of future investigators in clinical and community-based research. I co-direct UNC's Simmons Scholars Program, devoted to attracting, recruiting and retaining clinical faculty from underrepresented groups in order to enhance faculty diversity in the School of Medicine. I have served as a core faculty member for the RWJ Clinical Scholars Program and several NIH T32 training grants, including the National Research Service Award (NRSA) Primary Care Research Program and the NRSA Health Services Research Fellowship, both based at the Sheps Center, as well as on UNC's Building Interdisciplinary Research Careers in Women's Health (BIRCWH), Roadmap KL2, and K30 programs. I have served as co-director for training and outreach for the Center for Genomics and Society (P50HG004488) and have been a faculty mentor for the UNC Kellogg's Health Scholars postdoctoral program. Since arriving at UNC, I have served as a summer research mentor for 12 minority undergraduates from across the country in the UNC Summer Pre Graduate Research Experience and most recently the Morehouse School of Medicine IMOTHEP program. I have served as mentor on two diversity supplements and one administrative supplement to add junior minority trainees to my funded research projects. Through these programs I have obtained a wealth of experience providing both direct, formal research mentorship and informal career guidance for young scholars. I also currently hold a K24 (HL 105493) to mentor trainees in CVD risk reduction in rural minority communities.

Classroom and Clinical teaching

MTEC 123: Racial and Ethnic Disparities in Health: Progress and Community Impact, UNC Department of Social Medicine

The goal of this seminar is to encourage critical thinking and lifelong learning about the ways in which various disciplines investigate, address, and communicate information about health disparities. We review and discuss readings about health disparities and the social determinants of health from a range of sources including peer-reviewed journals, foundation and research organization reports, government policies and programs, and news media coverage. These readings serve as a base for our journal club, and a critical foundation from which to do research. Each seminar starts with a student led journal club that draws on seminal articles as well as contemporary literature on environmental influences on chronic illness.

Required 2nd year course for all medical students taught in the Department of Social Medicine (students select from fourteen seminars): approximately 12 students per seminar, 12 sessions, 1 hour 50 minutes each session, Fall semester

Fall 2011-Spring 2011: Primary Instructor

Fall 2012-Spring 2013: Primary Instructor

Fall 2015-Spring 2016: Primary Instructor

Fall 2017: Primary Instructor

Health Care and Prevention, Public Health Leadership Program UNC SPH:

This Master's of Public Health Program is designed for medical students who are interested in bringing together clinical and population health perspectives. Students take courses in clinical epidemiology, biostatistics, and critical appraisal of the literature. Faculty Advisors offer career counseling, guidance on master's paper, and supervision during research practicum. *Faculty advisor to 3 medical students*

2003 – Present: Faculty Advisor/Mentor

Precepting in Ambulatory Care Center: Supervise Internal Medicine interns and residents in outpatient setting with an emphasis on the principles of primary care in a continuity setting and lead weekly pre-clinic conferences. *Two to four half day sessions per month: approximately 4-5 residents per session*

2002 – 2009: Attending Physician, outpatient clinic

Humanities and Social Sciences Selectives, MEDI 231:

Racial and Ethnic Disparities in Health: What do we know and what can we do?

The objectives of this course are to explore two questions — Why do some groups have better health than others? How do individual, environmental, structural and contextual factors contribute to racial differences in health outcomes? Participants critically evaluate the scientific literature to understand the sources of racial differences in health in the US today. Key questions for reflection include: Does medical care contribute to health and minimize health disparities? Or does the doctor-patient relationship reproduce pre-existing social inequalities? What types of interventions would need to be put in place to address or ameliorate disparities in health, disparities in healthcare?

Required 2nd year course for all medical students taught in the Department of Social Medicine (students select from fourteen seminars): approximately 12 students per seminar, 12 sessions, 1 hour 50 minutes each session, Spring semester

Spring 2009: Primary Instructor

Spring 2008: Primary Instructor

Spring 2007: Primary Instructor

Robert Wood Johnson Clinical Scholars Program, Wednesday Work in Progress Seminar:

The major goal of these seminars is to facilitate development of the Scholars' research ideas. Two Scholars per seminar present their work-in-progress to ensure continuous development of their research. These oral presentations, moderated by CSP faculty, emphasize structured and practical peer review feedback.

Required seminar for all Clinical Scholars at UNC: 2 hours weekly in Fall, Spring and Summer semesters

2002 - 2006: Faculty/Mentor

Clinical Epidemiology, MEDI 220 and Tools for Diagnosis and Therapy, MEDI 230 (Clinical Epidemiology component): The objectives of these courses are: to increase knowledge and skills concerning the application of the scientific method to clinical issues and decision making; to increase knowledge and understanding of the factors associated with health and disease; to develop an understanding of the quantitative methods used in research and clinical measurement

used to solve clinical problems; and to increase skills in finding and judging the quality of information obtained from patients and clinical literature.

Required 2nd year courses for all medical students taught in the Department of Social Medicine: 12-14 students per seminar, 3 hours weekly in Spring semester (Clinical Epidemiology), Fall semester 3 days (Tools for Diagnosis and Therapy)

2006: Primary Instructor- Fall Block

2004-2005: Course Director

2004: Primary Instructor- Fall Block

2002-2003: Primary Instructor

Medicine and Society, MEDI 127: The course objectives are: to increase knowledge of the ways in which social and cultural contexts affect disease, experiences of illness and the roles of physicians; to develop a critical understanding of the historical, educational and ethical forces that shape physicians and doctor-patient relationships and to increase the knowledge of the social, political and economic forces that influence the organization and delivery of medical services.

Required 1st year course for all medical students taught in the Department of Social Medicine: approximately 14 students per seminar, 1.5 hours weekly in Fall and Spring semester

2001 - 2002: Seminar Instructor for Medicine and Society

2000 - 2001: Observer, required all new instructors

Humanities and Social Sciences Selectives, MEDI 231 - Research, Relationships and Ethics:

The aims of this seminar are to examine the ethical underpinnings, social dynamics and various cultural meanings of human subjects research in medicine. Seminar participants study the federal regulations and the principles that undergird them but move beyond them to consider the history, context and various cultural meanings of medical research. The approach is predominantly case oriented, with particular focus on community-based research, corporate sponsorship of research, inclusion of children in research, waiver of consent in emergency research and protocols for prenatal surgical repair of congenital malformations.

Required 2nd year course for all medical students taught in the Department of Social Medicine (students select from fourteen seminars): approximately 12 students per seminar: 12 sessions, 1 hour 50 minutes each session, Spring and Fall semesters

Fall 2002: Instructor

Spring 2002: Co-seminar instructor

Grants

Current Support

Reducing Risk of Cardiovascular Disease Risk Factors in Rural Communities in NC

Role: Principal Investigator

Agency: NIH/NHLBI, Grant#: 1-R01-HL120690-01, **03/15/2014-02/28/2020**

The proposed study will address this gap in the literature by determining the feasibility and efficacy of adapting EBIs to consider the social and physical environment important in rural African American communities and determining the acceptability of mobile technology in these communities to support behavior change. The proposed study is built on the strong foundation of Project GRACE's 8-year history of designing and testing interventions using a community-based participatory research (CBPR) approach, and individual and collaborative expertise in community-based CVD outreach, service and research.

Mentoring in Community Influences on CVD Risk

Role: Principal Investigator

Agency: NIH/NHLBI, Grant# K24 HL 105493-06, **09/20/2010 - 03/31/2020**

This career development award gives Dr. Corbie-Smith the dedicated time to focus on patient-oriented research in cardiovascular disease prevention, and recruit and mentor some of the brightest young scientists at UNC into healthcare disparities research.

RWJF Clinical Scholars Program

Role: Principal Investigator

Agency: Robert Wood Johnson Foundation, Grant #75569, **11/15/2015-8/31/2019**

The University of North Carolina at Chapel Hill, in collaboration with the Community-Campus Partnerships for Health and AcademyHealth is establishing the New Clinical Scholars and the Interdisciplinary Research Leaders Programs. Our approach to the New Clinical Scholars Program provides an unprecedented opportunity to train and support emerging clinical leaders to achieve the Foundation's vision of a culture of health. We propose an innovative and completely re-conceptualized approach to significantly expanding the leadership, public health, "hard skills," and intellectual breadth of enrolled interdisciplinary Fellows, all focused towards maximizing their impact on creating a culture of health through project-focused learning. The Interdisciplinary Leaders Program is designed around mutual respect and value for the diverse roles that academic and community partners bring to a partnership designed to create positive impact and measurable outcomes.

Identifying Local Strategies to Build Resilient Neighborhoods and Mitigate the Effects of Gun Violence

Role: Co-Principal Investigator

Agency: NIH/Yale University Subcontract, Grant # M17A12612, **09/01/2016 -05/31/2019**

The goal of this proposal is to evaluate an intervention that aims to prevent gun violence and mitigate its effects in high-risk communities by building community resilience. By focusing on the levers of engagement and self-sufficiency, we will strengthen the core components of social cohesion and collective efficacy in neighborhoods with high levels of gun violence.

North Carolina Clinical Genomic Evaluation

Role: Investigator (PI: Berg)

Agency: Next gen Exome Sequencing 2, Grant # U01-HG006487, **06/01/2018 – 05/31/2019**

The goal of this grant is to address several key issues in the clinical application of exome sequencing, including the diagnostic yield when applying WES in diverse clinical scenarios, optimal approaches to dealing with secondary findings, the informed consent process, and responses of patients and families to genomic information.

UNC TraCS Institute

Role: Deputy Director and Core Director (PI: Buse)

Agency: NIH/NCRR, Grant # UL1 TR001111 01 03, **09/26/2013 – 02/28/2019**

UNC Clinical and Translational Science Award

Major Goals: A national consortium of medical research institutions, funded through Clinical and Translational Science Awards, is working together and shares a common vision: to improve the way biomedical research is conducted across the country, reduce the time it takes for laboratory discoveries to become treatments for patients, engage communities in clinical research efforts, and train the next generation of clinical and translational researchers.

Mentoring Multidisciplinary Global HIV Patient-Oriented Research

Role: Scientific Advisor (PI: Tucker)

Agency: NIH/NIAID, Grant #1K24 AI143471-01, **1/07/2019-12/31/2023**

The goal of this mid-career development award is to build capacity for high-quality HIV prevention research in global settings.

Completed Research Support

Re-Engaging Ethics – Ethical Issues in Engaged Research

Role: Principal Investigator

Agency: Greenwall Foundation, **1/1/2016-12/31/2017**

In developed and ascending nations there is growing interest in engaging communities, patients and stakeholders as partners in the process of research. This emerging approach to common research designs goes by a variety of names, among them, patient centered outcomes research, community-based research, participatory research. One umbrella term, engaged scholarship, underscores the concept that those who are to be researched are now engaged in the conduct of research. Our goal is to gather a diverse set of stakeholders in a dialogue about the unique ethical issues that arise in engaged research. A key outcome of this meeting will be to make and disseminate recommendations for review and conduct of this emerging scientific approach to public health and biomedical research audiences in the peer reviewed literature as well as to community leaders through other dissemination products.

NPRM for Revisions to the Common Rule: A proposal to the Greenwall Foundation

Role: Principal Investigator, 5.67% effort, \$25,000

Agency: Greenwall Foundation, **11/4/2015-2/29/2016**

The proposed revisions to the Common Rule include efforts to streamline IRB review, increase the relevance of the process of informed consent and use as background the existing guiding principles of beneficence, respect for persons and justice. We propose to review, analyze the

propose policy changes and publish at least one manuscript that makes recommendations to advance the principle of justice in research as it pertains to health equity in research.

Preconception e-Intervention to Reduce Infant Mortality Due to Maternal Obesity

Role: Investigator, 2% Effort, \$228,000

Agency: NIDDK, Grant#: R21DK095189-01A1, **04/01/2013-03/31/2018**

Overweight and obesity have reached epidemic proportions and contribute to a vicious cycle of diabetes, cardiovascular disease (CVD) in women and adverse birth outcomes their offspring. Women who are overweight/obese at conception are at risk for gestational diabetes (i.e. diabetes of pregnancy), postpartum weight retention, type 2 diabetes and CVD in the years after delivery.¹ African American women share a disproportionate burden of overweight/obesity and the downstream consequences of this disease. Of the 4 million women who become pregnant each year in the US, over 60% are overweight or obese. African American women who are considering pregnancy should benefit from behavioral interventions (Diabetes Prevention Program, PREMIER), proven effective for weight loss and glucose control in general populations, but there continues to be a need to test the effectiveness in underserved populations and during this critical period of the woman's lifespan. We propose building on our experiences with First WInD to test the effectiveness of a theory-driven, provider-supported, preconception intervention.

Lung Cancer Surgery: Decisions Against Life Saving Care – The Intervention

Role: Co-Investigator, 5% Effort, \$2,122,403

Agency: American Cancer Society, Grant#: RSG-05-217-05-CPPB, **07/01/2011-06/30/2016**

This American Cancer Society sponsored study is designed to use a health literacy and culturally appropriate communication intervention for patients and electronic data tools with data feedback for providers to optimize surgical treatment for early stage lung cancer for all patients and to reduce the surgical gap between African-American and white lung cancer patients.

North Carolina Clinical Genomic Evaluation by NextGen Exome Sequencing

Role: Principle Investigator, 5% effort, \$1,107,848

Agency: NIH/NHGRI, Grant#: 1U01HG006487-01, **12/2011-11/2015**

The aims of this U01 are to evaluate the use and performance of WES as a diagnostic tool; to evaluate the occurrence, use, and impact of incidental WES information; to develop practical, ethical, and clinically-oriented mechanisms to facilitate interpretation, management, reporting and patient decision-making about WES data; and to apply WES in medically underserved groups to explore special opportunities and challenges to the broad implementation of clinical WES.

Mentoring in Community Influences on CVD Risk

Role: Principal Investigator, 50% effort, \$952,716

Agency: NIH/NHLBI, Grant#: K24 HL 105493-01, **09/20/2010 - 07/31/2015**

This career development award gives Dr. Corbie-Smith the dedicated time to focus on patient-oriented research in cardiovascular disease prevention, and recruit and mentor some of the brightest young scientists at UNC into healthcare disparities research.

Carolina Community Network Center to Reduce Cancer Health Disparities (CCN II)

Role: Co-Investigator, 25% Effort, \$796,013

Agency: NCI, Grant#: 1-U54-CA153602-01, **09/01/2010 – 09/31/2015**

The Carolina Community Network Center to Reduce Cancer Health Disparities (CCN II) will leverage the myriad successes of CCN I and continue to promote the community-based participatory research (CBPR) approach in adhering to the established mission of reducing cancer health disparities among adult African Americans in North Carolina. CCN II will be based at the Lineberger Comprehensive Cancer Center at the University of North Carolina at Chapel Hill and will provide a three-pronged research infrastructure that includes: Outreach, Research, and Training.

Carolina-Shaw Comprehensive NCMHD Research Center

Role: Co-Investigator, 1% effort, \$6,828,530 (PI: Godley)

Agency: NIH/NCMHD, Grant #: 2 P60 MD000244-08, **09/10/2007 - 05/31/2015**

The goal of the Carolina-Shaw Comprehensive NCMHD Research Center is to take advantage of the existing close relationship between Shaw University and UNC by combining the research and teaching resources at UNC with Shaw University's expertise in strengthening African-American communities and training minority leaders. This expanded inter-university partnership will jointly conduct cutting edge health disparities research that leverages the infrastructure developed during the previous grant period including the DC2 church network and the Shaw University Center for Survey Research. The focus of this Center is to eliminate chronic disease health disparities between whites and blacks. The thematic focus of the proposed Center will be to serve as a research incubator that will conduct innovative minority health research among adult African-American populations in North Carolina.

Project EAST: Increasing Access to HIV Trials for Rural Minorities

Role: Principal Investigator, 5% effort, \$1,323,552

Agency: NIH/NINR

Grant #: 1R01NR010204-04, **09/18/2006 - 06/30/2011**

This study seeks to gain a better understanding of the individual and community influences on research participation in HIV clinical trials which will result in innovative, theory based, culturally responsive interventions to increase minority representation.

Project GRACE: A Participatory Approach to Address Health Disparities

Role: Principal Investigator, 9% effort, \$1,638,662

Agency: NIH/National Center for Minority Health and Health Disparities

Grant #: 1 R24 MD001671-01, **09/30/2005 - 06/30/2008**

Project GRACE uses a community-based participatory research approach to partnership development and intervention design. The long-term goal is the development of feasible and sustainable interventions that reduce the spread of HIV.

Project GRACE: A Participatory Approach to Address Health Disparities

Role: Principal Investigator, 4% effort, \$1,452,090

Agency: NIH/National Center for Minority Health and Health Disparities

Grant #: R24 MD001671-05, **09/30/2005 - 02/28/2014**

Project GRACE uses a community-based participatory research approach to partnership development and intervention design to expand, strengthen and evaluate the development of the

Project GRACE Consortium; to identify community needs and assets in target counties to support the development of multilevel interventions to address individual and environmental/contextual factors that influence the spread of HIV; to define culturally appropriate multilevel interventions; and to test the feasibility of proposed methods to address both individual and environmental/contextual determinants of the spread of HIV.

Center for Genomics and Society

Role: Co-Investigator, 5% effort, \$ 3,637,429 (PI: Henderson)

Agency: NIH/NHGRI, Grant #: 1 P50 HG004488-03, **09/27/2007 – 04/30/2013**

The UNC-CH Center for Genomics and Society focuses on newly emerging ethical, legal and social implications (ELSI) of genomics research as the field shifts its focus from small efforts to those on a much larger scale. We will conduct research projects on ELSI issues; offer a research ethics consultation service for genomic researchers; facilitate policy initiatives that are informed by our research findings; and provide training, education, and community engagement particularly focused on underrepresented minorities to foster continued ELSI research on large-scale genomics.

Minority Recruitment Core, Carolina-Shaw Partnership for the Elimination of Health Disparities

Role: Co-Investigator/Core Director (PI: Godley)

Agency: NIH/National Center on Minority Health and Health Disparities

Grant # 1P60 MD000244, **10/01/2002 - 09/31/2007**

The goal of this project is to work with Black churches to develop and pilot test a registry of minority community members who are interested in being contacted about future research participation in cancer studies; and to engage in outreach to the scientific community to identify and address investigator specific barriers to minority recruitment.

Reducing Barriers to Symptom Management and Palliative Care

Role: Co-Investigator (PI: Hanson)

Agency: NIH/NCI, Grant #: 1R21 NR09785-01, **07/01/2005 - 06/30/2007**

The objective of this study is to improve treatment for pain and suffering for African American patients with cancer. An interdisciplinary group of faculty with expertise in palliative care and in community-based research will design and implement a Palliative Care Lay Health Advisor Program in a network of African American churches.

Learning about Research in North Carolina (LeARN)

Role: Principal Investigator, 10% effort, \$1,188,399

Agency: NIH/Human Genome Research Institute/ELSI

Grant # R01 HG002830, **06/13/2003 -05/31/2007**

The goal of this project is to conduct a telephone survey to understand participants' views of genetic variation research and their perceptions about the causes of colorectal cancer.

Research Supplement for Underrepresented Minorities to Learning about Research in North Carolina

Role: Principal Investigator/Mentor, 0% effort, \$99,192

Agency: NIH/NHGRI, Grant #: 3 R01 HG002830-03S1, **07/01/2005 - 05/31/2007**

The goal of the supplement is to have Dr. Bussey-Jones use the mentored research experience and other proposed activities to acquire new skills and knowledge that will enable her to prepare an individual mentored career development award. Dr. Corbie-Smith will be Dr. Bussey-Jones' primary research mentor.

Overcoming Barriers to African American Participation in Research

Role: Principal Investigator, 0%, \$365,400

Agency: Robert Wood Johnson Foundation

Type: Minority Medical Faculty Development Program; **01/2001 - 06/2006**

Grant #: 038407 (PI: Corbie-Smith)

The goal was to assess knowledge, attitudes, beliefs and practices of investigators toward recruitment and retention of African Americans in clinical research, and design an intervention to increase participation of African Americans in research.

Barriers to African American Participation in Research

Role: Principal Investigator, 75% effort, \$570,054

Agency: National Heart, Lung, Blood Institute

Type: Mentored Research Scientist Career Development Award; **09/1999 - 01/2005**

Grant #: K01 HL04039 (PI: Corbie-Smith)

The goals of this project were to define the barriers to participation in clinical trials faced by African American patients and to assess the knowledge, attitudes, beliefs and practices of investigators toward recruitment and retention of African Americans in clinical research.

End-of-Life Care in the African-American Community: Exploring Hospice Use

Role: Principal Investigator/Mentor; (Co-PI: Reynolds), 0% effort, \$15,000

Agency: UNC Program on Ethnicity, Culture and Health Outcomes

Type: Pilot study grant; **12/2002 - 11/2003**

The goal of this project was to define the barriers and facilitators to use of hospice care among African Americans.

Assessment of Cross-Cultural Medicine Curriculum and its Impact on Students' Level of Knowledge on Cultural Competence

Role: Co-investigator

Agency: Emory Medical Care Foundation

Type: Intramural Research; **11/1/2001 - 10/31/2003**, Grant #: 00005 (PI: Genao)

The goal of this project was to conduct a randomized control trial of a educational intervention to improve the knowledge of cross cultural issues in medicine.

Influences on Vaccine Use in Elderly African-Americans

Role: Principal Investigator of Pilot Study, 0% effort, \$30,000

Agency: National Institute on Aging

Type: Pilot study grant; **09/2001 - 06/2003**, Grant # of Parent Study: NR04716 (PI: Mutran)

The goal was to define the barriers and facilitators to African American elders' use of influenza vaccines.

Sexual Practices and Knowledge of HIV Risk among Older Women in an Inner-City Primary Care Clinic

Role: Co-Investigator

Agency: Emory Medical Care Foundation

Type: Intramural Research; **08/01/2001 - 07/31/2002**

Grant #: 00002 (PI: Bernstein)

The goals of this project were to describe knowledge, perceived and actual risk of HIV among postmenopausal African American women seeking care in a public hospital primary care clinic.

An Assessment of the Acceptability of a Rapid HIV Test in an Underserved Population

Role: Co-Investigator

Agency: Centers for Disease Control and Prevention

Type: Research Grant; **09/1999 - 09/2001**

Grant #: UR3/CCU416463-02-02 (PI: del Rio)

The goals of this project were to explore the attitudes and beliefs of African Americans toward HIV testing and to determine whether an opt-out strategy of rapid vs. standard HIV testing would be feasible in an urban hospital.

Women's Health Initiative

Role: Co-Investigator

Agency: National Institutes of Health

Type: NIH Contract; **12/1997 - 06/2000**

Grant #: N01-WH-3211 (PI: McNagny)

Provided guidance in the recruitment, retention and adherence of participants at the Atlanta site for this longitudinal cohort and national multi-center clinical trial aimed at understanding the role of estrogen therapy, low fat diet and calcium/Vitamin D for multiple outcomes in women.

Women's Estrogen Stroke Trial

Role: Co-Investigator

Agency: NINDS/NIH

Type: Minority Investigator supplement to R01; **1997 - 1999**

Grant #: R01-N531251 (PI: Horwitz)

Explored the clinical, sociodemographic and psychosocial determinants of recruitment and retention into the Women's Estrogen Stroke Trial (WEST), a randomized, double blind, placebo controlled trial designed to test whether estrogen treatment would reduce the risk of death or recurrent stroke in postmenopausal women with established cerebrovascular disease

Factors Associated with Voluntary Participation of Minorities in Clinical Trials

Role: Principal Investigator, 0% effort, \$25,000

Agency: Emory Medical Care Foundation, Type: Pilot project grant; **1996 - 1998**

The goal of this project was to use qualitative research methods to explore understanding of and barriers to African American participation in research.

To Discipline

Duke CTSA External Advisory Board, May 2018-

Study Section Member, NINR, 2015-2017

Quadrennial Review Coordinator, National Human Genome Research Institute's Social and Behavioral Branch (SBRB), Bethesda MD., June 2015

Eastern Caribbean Health Outcomes Research Network (ECHORN) Faculty Advisory Board, New Haven CT., April 2015

PCORI Clinical Trials Advisory Panel and Subcommittee, Patient-Centered Outcomes Research Institute, Washington D.C., 2015

National Institute of Health Loan Repayment Program (LRP) Reviewer, Bethesda MD., 2015

Provost Task Force on Poverty, UNC-Chapel Hill, NC, 2014-2015

Secretary-elect, Society of General Internal Medicine, 2012-2015

Ad hoc study section member, NIMHD, 2010, 2011, 2012

Abstract Selection Committee, Society of General Internal Medicine, Annual Southern Region Meeting, 2007

Council Member, Society of General Internal Medicine, 2004-2007

Chair, Minorities in Medicine Interest Group, Society of General Internal Medicine, 2003

Co-Chair, Abstract Selection Subcommittee on Disparities in Health, Society of General Internal Medicine, Annual National Meeting, 2003

Co-Chair, Minorities in Medicine Interest Group, Society of General Internal Medicine, 2002- 2003

Chair, Workshop Selection, Society of General Internal Medicine, Annual National Meeting, 2001

Chair, Workshop Selection Subcommittee: Addressing Disparities in Health, Society of General Internal Medicine, Annual National Meeting, 2000

Diversity and Communication in Health Care: Addressing Race/Ethnicity, Language and Social Class in Health Care Disparities, Subgroup on Changing Provider Behavior, US Department of Health and Human Services, Office of Minority Health, 2000

Health Care Policy Workshop Selection Subcommittee, Society of General Internal Medicine, Annual National Meeting, 1999

Abstract Selection Committee, Society of General Internal Medicine, Annual Southern Region Meeting, 1999

State, National, International Offices or Committees

Member, National Advisory Council on Minority Health and Health Disparities (NACMHD), 2017-

Patient Centered Outcomes Research Institute, Review Panel 2012

Member, Committee on Standards for Systematic Reviews of Clinical Effectiveness Research, Institute of Medicine, National Academies of Science, 2009-2011

National Institutes of Health, Special Emphasis Study Section National Institute on Minority Health and Health Disparities, 2011

Member, North Carolina General Assembly, Comparative Effectiveness Study Committee, 2010

Health Disparities Task Force, Society of General Internal Medicine, 2007-Present

Finance Committee, Society of General Internal Medicine, 2007-2012

National Institutes of Health, Special Emphasis Study Section on Research Ethics, 2000

Development Committee, Society of General Internal Medicine, 2000-Present

Healthcare Delivery and Methodologies (HDM) Integrated Review Group- RC4 Community Infrastructure applications, 2010

Co-chair, Cardiovascular Disease Prevention in Rural Communities Conference, NHLB1, National Institutes of Health, 2010

Chair, Diabetes and Obesity Disparities in Healthcare Systems Conference, National Institutes of Health, 2008

National Federal Advisory Committee, National Children's Study, 2005-2007

Data Safety and Monitoring Board, Acute Respiratory Distress Syndrome Clinical Network, National Heart, Lung, and Blood Institute, National Institute of Health, 2001-2006

Scientific and Policy Advisory Committee, Kellogg Minority Health Disparities Scholars Program, 2000-2006

Committee Member, Ethical Issues in Housing Related Health Hazard Research Involving Children, Youth and Families, Institute of Medicine, The National Academies, 2004-2005
Joint Morehouse/ Emory Strategic Planning Committee, Research Subcommittee, 1999-2000

Steering Committee, Georgia Collaborative for Improving Care at the End of Life, 1999-2000

Community Advisory Board, Emory/Atlanta HIV Vaccine Evaluation Center, 1999-2000

Dean's Committee on Strategic Planning for Research at Grady Memorial Hospital, Emory University School of Medicine, 1999

Advisory Committee, Atlanta Health Ministries, Inc., 1999

Advisory Panel, Minority health issues, "Healthy Doc" project (national study of medical students), 1999

Minority Affairs Advisory Council, Emory University School of Medicine, 1998
Ethics Committee, Grady Memorial Hospital, 1998

Clinical Education Committee, Yale University School of Medicine, 1994-1995

Intern Selection Committee, Yale University School of Medicine, 1994-1995

Yale Minority Medical Association, Yale University School of Medicine, 1993-1995

Committee on Student Promotions, Albert Einstein College of Medicine, 1989-1991

Consultantships

Consultant, Tuskegee University National Center for Bioethics in Research and Health Care, 2000

Medical Consultant, "No Place like Home" Grady Memorial Hospital Employee Breast Health Program, 1998-1999

Advisory Council, Georgia Commission on Organ and Tissue Donation in African Americans, 1998-1999

Editorial appointments

Reviewer, *Journal of National Medical Association*, 2001 - Present
