

## CURRICULUM VITAE

**GISELLE CORBIE-SMITH, MD, MSc**

### **Education**

#### *Degrees*

##### **M.Sc. - Clinical Research**

Emory University  
Department of Epidemiology  
1998-2000

##### **M.D. - Medicine**

Albert Einstein College of Medicine  
1987-1991

##### **B.A. - Biology and Genetics**

Cornell University  
College of Arts and Sciences  
1982-1986

#### *Postgraduate Training*

**Executive Leadership in Academic Medicine (ELAM)**, Drexel University, 2006-2007

**Clinical Ethics Faculty Fellow**, Center for Ethics in Public Policy and Professions, Atlanta GA, 1998-2000

**Health Services Research Institute**, Association of American Medical Colleges, Washington D.C. Fellow, 1996-1998

**Yale University School of Medicine**, Yale-New Haven Hospital, New Haven CT  
Chief Medical Resident, 1994-1995

**Yale University School of Medicine**, Yale-New Haven Hospital, New Haven CT  
Internship/Residency, Internal Medicine, 1991-1994

### **Professional Experience**

**Associate Director for Engagement Science**, North Carolina Translational and Clinical Sciences Institute, University of North Carolina at Chapel Hill, 2020-

**Associate Provost**, Initiative for Rural Engagement Partnerships, University of North Carolina at Chapel Hill, 2019-

**Immediate-Past President**, Society of General Internal Medicine, 2019-2020

**President**, Society of General Internal Medicine, 2018-2019

**President Elect**, Society of General Internal Medicine, 2017-2018

**Director**, UNC Center for Health Equity Research, University of North Carolina School of Medicine, Department of Social Medicine, Chapel Hill NC, 2013-

**Kenan Distinguished Professor**, Departments of Social Medicine and Medicine, University of North Carolina at Chapel Hill, School of Medicine, 2013-

**Professor with tenure**, Department of Social Medicine, University of North Carolina at Chapel Hill, School of Medicine, 2011-2013

**Professor with tenure**, Department of Medicine, Division of General Medicine and Clinical Epidemiology, University of North Carolina at Chapel Hill, School of Medicine, 2011-2013

**Associate Professor of Epidemiology**, University of North Carolina at Chapel Hill, School of Public Health, 2007-2010

**Associate Professor with tenure**, Department of Social Medicine, University of North Carolina at Chapel Hill, School of Medicine, 2004-2010

**Associate Professor with tenure**, Department of Medicine, Division of General Medicine and Clinical Epidemiology, University of North Carolina at Chapel Hill, School of Medicine, 2004-2010

**Adjunct Associate Professor of Epidemiology and Biostatistics**, University of North Carolina at Chapel Hill, School of Public Health, 2004-2007

**Senior Research Fellow**, Cecil G. Sheps Center for Health Services Research, University of North Carolina at Chapel Hill, 2004-

**Assistant Professor**, Department of Social Medicine, University of North Carolina at Chapel Hill, School of Medicine, 2000-2004

**Co-Director**, Program on Health Disparities, Cecil G. Sheps Center for Health Services Research, University of North Carolina at Chapel Hill, 2003-2019

**Research Fellow**, Cecil G. Sheps Center for Health Services Research, University of North Carolina at Chapel Hill, 2001-2003

**Faculty**, Robert Wood Johnson Clinical Scholars Program, University of North Carolina at Chapel Hill, 2002-

**Assistant Professor**, Department of Medicine, Division of General Medicine and Clinical Epidemiology, University of North Carolina at Chapel Hill, School of Medicine, 2000-2004

**Adjunct Assistant Professor of Epidemiology and Biostatistics**, University of North Carolina at Chapel Hill, School of Public Health, 2000-2004

**Faculty Research Associate**, Institute for Minority Health Research, Rollins School of Public Health, 1998-2000

**Assistant Professor of Medicine**, Division of General Medicine, Emory University School of Medicine, 1995-2000

**Instructor in Internal Medicine**, Department of Internal Medicine, Yale University School of Medicine, 1994-1995

*Hospital and Staff Appointments*

**Attending Physician**, Carrboro Community Health Center, Piedmont Health Services, Chapel Hill, NC 2009-

**Attending Physician**, Moncure Community Health Center, Piedmont Health Services, Chapel Hill, NC 2001-2005

**Attending Physician**, UNC Hospital, Chapel Hill NC, 2000-

**Attending Physician**, Grady Memorial Hospital, Atlanta GA, 1995-2000

**Attending Physician**, Yale New Haven Hospital, New Haven CT, 1994-1995

**Attending Physician**, West Haven VA Medical Center, New Haven CT, 1994-1995

**Consulting Physician**, South Central Rehabilitation Center, New Haven CT, 1994-1995

**Other Employment**

**Student Instructor**, Introduction to Clinical Medicine, Albert Einstein College of Medicine, 1990

**Instructor**, AIDS Education, STATS (Students Teaching AIDS to Students) and WIC (Women Infants and Children) programs, 1989

**Summer Coordinator**, Sophie Davis Program, 1988

**Computer Consultant**, The New York City Board of Education, Summer 1985, 1986-1988

**Research Assistant**, The Brooklyn Hospital, Department of Genetics, 1986

## Medical Certification/Licensure

- Diplomat of the American Board of Internal Medicine, 2004-2024
- Diplomat of the National Board of Medical Examiners, 1992-
- State of North Carolina, 2000-
- State of Georgia, 1995-2000
- State of Connecticut, 1993-1995

## Honors and Awards

**Hortense K. McClinton Outstanding Faculty Staff Award**, University of North Carolina at Chapel Hill, 2021

**Edward Kidder Graham Faculty Service Award**, University of North Carolina at Chapel Hill, 2019

**Honored Lecturer, Norma Berryhill Distinguished Lecture**, UNC School of Medicine, 2018

**Herbert W. Nickens Award**, Society of General Internal Medicine, 2016

**Triangle/Triad Leadership Fellowship**, UNC-Chapel Hill, Duke University, NC State University, Elon University, North Carolina A&T University, and Wake Forest University, 2014

**Faculty Mentoring Award**, Carolina Women's Leadership Council, 2014

**IAH Academic Leadership Fellow for 2014-15**, Institute for the Arts and Humanities.

**Office of the Provost Engaged Scholarship Award for community-university partnership**, Project GRACE, 2013

**Leadership in Health Disparities Research**, National Center for Minority Health and Health Disparities, National Institutes of Health, 2008

**James E. Bryan Award for Public Service**, University of North Carolina at Chapel Hill, Award for excellence in service to communities of North Carolina, 2007

**Jefferson Pilot Fellowship in Academic Medicine**, University of North Carolina at Chapel Hill, Award given to most promising junior researcher in the UNC School of Medicine, 2003

**David E. Rogers Junior Faculty Education Award for "Reaching the Unreached: Research Participation and Underserved Population,"** 23<sup>rd</sup> Annual Meeting of the Society of General Internal Medicine, 2000

**Hugh Dwyer Award for Clinical Excellence**, Yale University School of Medicine, 1995

**Alpha Omega Alpha Society**, Albert Einstein College of Medicine, 1991

**Louis and Rachel Rudin Foundation Scholarship**, Albert Einstein College of Medicine, 1987-1990

## **Publications**

### *Books and Chapters*

Ellison A, Akers A, Black A, Albritton T, Hodge-Sallah S, Wynn M, Ellis D, & Corbie-Smith G. HIV prevention in a rural community: Project GRACE- A multigenerational approach to community engagement. In: *Innovations in HIV Prevention Research and Practice through Community Engagement*. Rhodes, SD: Springer; 2014:11-33.

Roman Isler M, Odulana A, Corbie-Smith G. The Legacy of Tuskegee: Lessons for Community-Based Research. In: *The Search for the Legacy of the USPHS Syphilis Study at Tuskegee: Reflective Essays Based upon Findings from the Tuskegee Legacy Project*. Lanham, MD: Lexington Books; 2011:89-96.

Corbie-Smith G, Arriola KJ. A Legacy of Distrust: Research, Ethics and Black Americans. In: *Health Issues in the Black Community*. 2nd ed. San Francisco, CA: Jossey-Bass Inc; 2001:489-502.

Bussey-Jones J, Corbie-Smith G. Ethnicity in Women Physicians. In: *Women in Medicine: Career and Life Management*. 3rd ed. New York, NY: Springer; 2001:93-98.

### **Selected Invited Presentations**

“Ensuring Equity Beyond the Pandemic.” Presentation at INFORMS Healthcare meeting; July 2021; Chapel Hill, NC.

Panel for “Building and Maintaining Partnerships for Health Equity.” June 2021; Chapel Hill, NC.

Workshop for “Patient-Centered Outcomes Research: Building Data Capacity.” Presentation at National Academies of Sciences, Engineering, and Medicine; May 2021; Chapel Hill, NC.

Panel for “Health Equity Commissions Mentoring Panel.” Presentation at SGIM21 Virtual Annual Meeting; April 2021; Chapel Hill, NC.

“Community Engaged Research and Health Equity.” Presentation at Health Policy Visiting Scholars Series; April 2021; Chapel Hill, NC.

Panel for “Structural Racism’s Exacerbating Impacts on Health.” Presentation at Physicians for Human Rights COVID-19 speaker series webinar; March 2021; Chapel Hill, NC.

Panel for “COVID-19 Vaccine: Trust & Communication.” Presentation at The Hill Virtually Live; March 2021; Chapel Hill, NC.

“A Conversation on Health Equity.” Presentation at: UNC Health Foundation; March 2021; Chapel Hill, NC.

“Feasibility, Implementation and Equity Considerations.” Presentation at: Expert Workshop on COVID-19 Testing At-Home Study; December 2020; Chapel Hill, NC.

“Designing for Health Equity.” Presentation at: OptumLabs CONNECTIONS 2020 Virtual Series; October 2020; Chapel Hill, NC.

“Mental Health and Well-Being During the Pandemic.” Presentation at: ReCONNECT to Move Forward: Mental Health & Well-Being; October 2020; Chapel Hill, NC.

“Research Worthy of Community Trust panel.” Presentation at: Amos Medical Faculty Development Program Annual Meeting; September 2020; Chapel Hill, NC.

“Equity in a Post Pandemic World.” Presentation at: Health Equity Summit; August, 2020; Chapel Hill, NC.

“Rebuilding a Global Approach to Health.” (with John Ayanian and Roshmi Goswami, moderated by Patricia Sellers). Presentation at: Physicians for Human Rights webinar; July, 2020; Chapel Hill, NC.

“Lessons Learned From The Past: Addressing COVID-19 Disparities for a More Equitable Future.” Presentation at: SGIM, Race and COVID webinar; June, 2020; Chapel Hill, NC.

“Advancing Health Equity through an Intentional Focus on Leadership Development.” Presentation at: NYU Center for Healthful Behavior Change Research Seminar Series; January, 2020; New York City, NY.

“Leveraging the Power of Collaboration and Engagement to Achieve Health Equity.” Presentation at: NYU School of Medicine Honors Program Lectureship; January, 2020; New York City, NY.

“Making a Difference: Partnering to Achieve Health Equity.” (with Al Richmond). Presentation at: 2019 PCORI Annual Meeting Closing Keynote Lecture; September, 2019; Washington, D.C..

“Rural Health: Current Issues and Opportunities.” Presentation at: Keynote for Blending the Blues: Advancing Rural Health; January, 2019; Chapel Hill, NC.

Schweizerische Gesellschaft für Allgemeine Innere Medizin (SGAIM). Presentation at: Presidents’ Lecture; May, 2017; Lausanne, Switzerland.

“Advancing Equity through Community Partnership.” (with Al Richmond and Mysha Wynn). Presentation at: 2017 Annual State Health Director’s Conference; January, 2017; Raleigh, NC.

“Sustainable Community-Academic Partnerships.” Presentation at: RCMi Special Workshop: Community Based Participatory Research Approach to Health Equity Research: A Workshop for Community and Academic Researchers; January, 2016; San Juan, PR.

“A Career in CBPR: Opportunities and Challenges – Researcher Panel.” Presentation at: RCMi Special Workshop: Community Based Participatory Research Approach to Health Equity Research: A Workshop for Community and Academic Researchers; January, 2016; San Juan, PR.

“Strategies for Success and Leadership in Research.” Presentation at: AAMC Minority Faculty Career Development Seminar; September, 2015; Atlanta, GA.

“A Celebration of Community Change and Change Agents”. Presentation at: Project SHARE Patient Navigator Celebration; August, 2015; Enfield, NC.

“Achieving Equity by Addressing the Social Determinants of Health.” Presentation at: Christiana Care Value Institute 2015 Spring Symposium: Eliminating Health Care Disparities; May, 2015; Wilmington, DE.

“Achieving Equity through Community-Based Participatory Research: A Portrait of Project GRACE.” Presentation at: Gender, Health, & The South 2015 Symposium Wake Forest University; April, 2015; Winston-Salem, NC.

“Women of Color and Health: Examining the Risk and Protective Factors that Influence Health Disparities.” Presentation at: Women's Health Awareness Day at North Carolina Central University; April, 2015; Durham, NC.

“Authentic Community-Academic Partnerships.” Presentation at: Meharry-Vanderbilt Alliance 15 Year Anniversary Lecture Series; March, 2015; Vanderbilt School of Medicine, Nashville TN.

Presentation at: Institute of African American Research (IAAR) Engaged Research Panel; June, 2015; Chapel Hill NC.

“Community-Engaged Research: The building, balance, benefits & bruises.” Presentation at: Keynote Address for Northwestern University Clinical and Translational Sciences Institute (NUCATS); May, 2013; The Robert H Lurie Medical Research Center of Northwestern University.

“Panel Four: Making an Impact – From Considerations, to Recommendations to Change.” Presentation at: An Invitational Summit Making the Link: Connecting Community Experience and National Policy to Reduce Disparities in Diabetes; March, 2012.

“Building and Sustaining Trust in Community Partnerships to Promote Health”. Presentation at: Keynote Address for “A Community-Academic Forum: Misunderstanding and Mistrust in Health Research and Health Care: Opening a Dialogue in Boston”, Boston Children’s Hospital Center for Collaborative Community Research; June, 2012.

Visiting Professor, Department of Medicine; Vanderbilt University School of Medicine; January, 2009.

Visiting Professor, Center for Rural Health; University of Virginia, School of Nursing; December, 2008.

Invited Plenary Address; NIH Summit: The Science of Eliminating Health Disparities; December, 2008.

Visiting Professor; Center for Community Based Research, University of Pennsylvania; October, 2007.

Visiting Professor; National Institutes of Health, National Human Genome Research Institute; June, 2006.

Visiting Professor; Hennepin County Medical Center, University of Minnesota; May, 2005.

Phyllis Bodel Visiting Professor; Yale University School of Medicine; November, 2004.

“Genetics and Epidemiology”; American College of Epidemiology; September 2004.

“More than just a little blood: ethical challenges in genetic variation research”. Presentation at: 9<sup>th</sup> Annual Conference on Genetics and Ethics in the 21<sup>st</sup> Century; July 2004 Aspen, CO.

Visiting Professor; Johns Hopkins University School of Medicine; December, 2003.

“African American participation in research: What do we know and what should we do”. Presentation at: National Medical Association Pediatric Research Network; August. 2003.

“What Can We Do To Reduce Health Disparities”. Presentation at: Keynote address, North Carolina Schweitzer Fellows Symposium; November, 2002; Chapel Hill, NC.

Presentation at: Minority Health Update, panel, 25<sup>th</sup> annual meeting of the Society of General Internal Medicine; Atlanta, GA; May, 2002.

Closing the circle between minority participation in research and health disparities, “The Politics of ‘Racial Health: Myths, Maladies and the History of Policy’”. Presentation at: Rutgers State University of New Jersey; October, 2001.

Distrust, Race and Research. Presentation at: Agency for Healthcare Research and Quality; July, 2001; Bethesda, MD.

Recruitment of Minorities into Clinical Trials: Barriers and Solutions. Presentation at: 83<sup>rd</sup> Annual Meeting, The Endocrine Society; June, 2000; Toronto Ontario, Canada.

Chair, Workshop, Reaching the Unreached: Research Participation and Underserved Populations, 23<sup>rd</sup> Annual Meeting of the Society of General Internal Medicine; May, 2000; Boston, MA.

Chair, Research Panel, Minority Faculty Development Precourse, 23<sup>rd</sup> Annual Meeting of the Society of General Internal Medicine; May 2000; Boston, MA,

Lessons Learned from Tuskegee: African American Patients and Research, in “Walking in Each Other’s Shoes: Developing Intercultural Awareness and Communications Skills”, One-day course for University Faculty. Presentation at: Emory University; April, 2000.

Presentation at: Keynote address, 13<sup>th</sup> Annual Mary Starke Harper Lecture Series, Bioethics and Health Care: Cultural Considerations, Tuskegee University School of Nursing and Allied Health; March, 2000.

Applied Research Ethics. Presentation at: The 2000 National Conference of African Americans and AIDS; February, 2000.

Facilitator, The Impact of Diversity on Public Education and End of Life Care, Georgia Collaborative to Improve End of Life Care, Second Annual Conference, February, 2000.

Considerations for Carrying Out Research with Vulnerable Populations: Lessons Learned From Tuskegee. Presentation at: Tuskegee University National Center for Bioethics in Research and Health Care; November, 1999.

Trust or Distrust: Perspectives on Barriers to Communication Between Doctors and African-American Patients. Presentation at: American Academy on Physician and Patients Annual National Faculty Development Course; June, 1998.

Health Issues for African American Women. Presentation at: Georgia Southern University, Georgia Commission on Women; September, 1997.

Health Care Providers and Mammography Referral in African American Women: What are the Barriers and What Can We Do? Atlanta Multi-City Mammography Pilot Project. Presentation at: Georgia Medical Care Foundation, Health Care Financing Administration, Department of Health and Human Services; September, 1997.

The Tuskegee Experiment: A Case-Study of Psychocultural Barriers to Access, Horizons Pilot Project Conference. Presentation at: Health Care Financing Administration, Department of Health and Human Services; June, 1997.

The Tuskegee Syphilis Study, “Implications for the Practice of Medicine,” workshop. Presentation at: Southern Regional Meeting of the Society of General Internal Medicine presentation; February, 1997, New Orleans, LA.

A longitudinal case study in hypertension: An evidence based approach”. Presentation at: Society of General Internal Medicine presentation, 1996 Annual National meeting; May, 1996; Washington, D.C..

“The Tuskegee Syphilis Study: Its Implication for the Doctor-Patient Relationship”. Presentation at: Emory University School of Medicine, Faculty Development Workshop; January, 1996.

## **Selected Guest Lectures and Workshops**

2003

Qualitative Research Working Group, RWJ Clinical Scholars Program  
Pediatric Research Network, National Medical Association  
Health Disparities Lectures Series, UNC Sheps Center  
Visiting Professor, Johns Hopkins School of Medicine

2002

Clinical Scholars Core Curriculum  
INCLIN XVII Global Meeting  
Project Impact, National Medical Association

2001

“Race and Ethnicity in Public Health Research,” UNC SPH  
Practice based research networks, Agency for Healthcare Research and Quality  
Program on Health Outcomes, Summer Outcomes Day, UNC SPH

2000

“Reaching the Unreached: Research Participation and Underserved Populations,” Society of  
General Internal Medicine, David E. Rogers Junior Faculty Education Award

## **Teaching Record**

### *At University of North Carolina at Chapel Hill*

#### **Student and Faculty Mentoring in Research**

My primary teaching role has been as a research mentor for junior faculty, fellows, graduate and medical students. Through my leadership of and involvement in several training programs at UNC, I have mentored trainees from a variety of disciplines and academic ranks, substantially contributing to UNC’s pool of future investigators in clinical and community-based research. I co-direct UNC’s Simmons Scholars Program, devoted to attracting, recruiting and retaining clinical faculty from underrepresented groups in order to enhance faculty diversity in the School of Medicine. I have served as a core faculty member for the RWJ Clinical Scholars Program and several NIH T32 training grants, including the National Research Service Award (NRSA) Primary Care Research Program and the NRSA Health Services Research Fellowship, both based at the Sheps Center, as well as on UNC’s Building Interdisciplinary Research Careers in Women's Health (BIRCWH), Roadmap KL2, and K30 programs. I have served as co-director for training and outreach for the Center for Genomics and Society (P50HG004488) and have been a faculty mentor for the UNC Kellogg’s Health Scholars postdoctoral program. Since arriving at UNC, I have served as a summer research mentor for 12 minority undergraduates from across the country in the UNC Summer Pre Graduate Research Experience and most recently the Morehouse School of Medicine IMOTHEP program. I have served as mentor on two diversity supplements and one administrative supplement to add junior minority trainees to my funded research projects. Through these programs I have obtained a wealth of experience providing both

direct, formal research mentorship and informal career guidance for young scholars. I also currently hold a K24 (HL 105493) to mentor trainees in CVD risk reduction in rural minority communities.

### **Classroom and Clinical teaching**

#### ***Understanding the Social Determinants of Health and the Influence on Health Disparities, UNC Department of Social Medicine, MTEC123.014:***

The social determinants of health –where we are born, live, work, play and age include social and economic factors such as income, education, employment status and working conditions, social networks and community cohesion. This seminar will examine these relationships with the incidence and prevalence of illness ranging from diabetes, cancer, and heart disease and examine the role that environmental influences, current and future, might play in reducing or reinforcing current health disparities. Each seminar meeting will start with a student led journal club that draws on seminal articles as well as contemporary literature on environmental influences on chronic illness.

Fall 2021: Primary Instructor

#### ***Racial and Ethnic Disparities in Health: Progress and Community Impact, UNC Department of Social Medicine, MTEC 123:***

The goal of this seminar is to encourage critical thinking and lifelong learning about the ways in which various disciplines investigate, address, and communicate information about health disparities. We review and discuss readings about health disparities and the social determinants of health from a range of sources including peer-reviewed journals, foundation and research organization reports, government policies and programs, and news media coverage. These readings serve as a base for our journal club, and a critical foundation from which to do research. Each seminar starts with a student led journal club that draws on seminal articles as well as contemporary literature on environmental influences on chronic illness.

*Required 2<sup>nd</sup> year course for all medical students taught in the Department of Social Medicine (students select from fourteen seminars): approximately 12 students per seminar, 12 sessions, 1 hour 50 minutes each session, Fall semester*

Fall 2011-Spring 2011: Primary Instructor

Fall 2012-Spring 2013: Primary Instructor

Fall 2015-Spring 2016: Primary Instructor

Fall 2017: Primary Instructor

#### ***Health Care and Prevention, Public Health Leadership Program UNC SPH:***

This Master's of Public Health Program is designed for medical students who are interested in bringing together clinical and population health perspectives. Students take courses in clinical epidemiology, biostatistics, and critical appraisal of the literature. Faculty Advisors offer career

counseling, guidance on master's paper, and supervision during research practicum. *Faculty advisor to 3 medical students*

2003- : Faculty Advisor/Mentor

***Precepting in Ambulatory Care Center:***

Supervise Internal Medicine interns and residents in outpatient setting with an emphasis on the principles of primary care in a continuity setting and lead weekly pre-clinic conferences. *Two to four half day sessions per month: approximately 4-5 residents per session*

2002-2009: Attending Physician, outpatient clinic

***Humanities and Social Sciences Selectives, MEDI 231:***

*Racial and Ethnic Disparities in Health: What do we know and what can we do?*

The objectives of this course are to explore two questions — Why do some groups have better health than others? How do individual, environmental, structural and contextual factors contribute to racial differences in health outcomes? Participants critically evaluate the scientific literature to understand the sources of racial differences in health in the US today. Key questions for reflection include: Does medical care contribute to health and minimize health disparities? Or does the doctor-patient relationship reproduce pre-existing social inequalities? What types of interventions would need to be put in place to address or ameliorate disparities in health, disparities in healthcare?

*Required 2<sup>nd</sup> year course for all medical students taught in the Department of Social Medicine (students select from fourteen seminars): approximately 12 students per seminar, 12 sessions, 1 hour 50 minutes each session, Spring semester*

Spring 2009: Primary Instructor

Spring 2008: Primary Instructor

Spring 2007: Primary Instructor

***Robert Wood Johnson Clinical Scholars Program, Wednesday Work in Progress Seminar:***

The major goal of these seminars is to facilitate development of the Scholars' research ideas. Two Scholars per seminar present their work-in-progress to ensure continuous development of their research. These oral presentations, moderated by CSP faculty, emphasize structured and practical peer review feedback.

*Required seminar for all Clinical Scholars at UNC: 2 hours weekly in Fall, Spring and Summer semesters*

2002-2006: Faculty/Mentor

***Clinical Epidemiology, MEDI 220 and Tools for Diagnosis and Therapy, MEDI 230 (Clinical Epidemiology component):*** The objectives of these courses are: to increase knowledge and skills concerning the application of the scientific method to clinical issues and decision making; to increase knowledge and understanding of the factors associated with health and disease; to develop an understanding of the quantitative methods used in research and clinical measurement

used to solve clinical problems; and to increase skills in finding and judging the quality of information obtained from patients and clinical literature.

*Required 2<sup>nd</sup> year courses for all medical students taught in the Department of Social Medicine: 12-14 students per seminar, 3 hours weekly in Spring semester (Clinical Epidemiology), Fall semester 3 days (Tools for Diagnosis and Therapy)*

2006: Primary Instructor- Fall Block

2004-2005: Course Director

2004: Primary Instructor- Fall Block

2002-2003: Primary Instructor

***Medicine and Society, MEDI 127:*** The course objectives are: to increase knowledge of the ways in which social and cultural contexts affect disease, experiences of illness and the roles of physicians; to develop a critical understanding of the historical, educational and ethical forces that shape physicians and doctor-patient relationships and to increase the knowledge of the social, political and economic forces that influence the organization and delivery of medical services.

*Required 1<sup>st</sup> year course for all medical students taught in the Department of Social Medicine: approximately 14 students per seminar, 1.5 hours weekly in Fall and Spring semester*

2001-2002: Seminar Instructor for Medicine and Society

2000-2001: Observer, required all new instructors

***Humanities and Social Sciences Selectives, MEDI 231 - Research, Relationships and Ethics:***

The aims of this seminar are to examine the ethical underpinnings, social dynamics and various cultural meanings of human subjects research in medicine. Seminar participants study the federal regulations and the principles that undergird them but move beyond them to consider the history, context and various cultural meanings of medical research. The approach is predominantly case oriented, with particular focus on community-based research, corporate sponsorship of research, inclusion of children in research, waiver of consent in emergency research and protocols for prenatal surgical repair of congenital malformations.

*Required 2<sup>nd</sup> year course for all medical students taught in the Department of Social Medicine (students select from fourteen seminars): approximately 12 students per seminar: 12 sessions, 1 hour 50 minutes each session, Spring and Fall semesters*

Fall 2002: Instructor

Spring 2002: Co-seminar instructor

***At Emory University***

***Faculty Advisor,*** Inginia Genao and Jada Bussey Jones, “*Assessment of Cross-Cultural Medicine Curriculum and its Impact on Students' Level of Knowledge on Cultural Competence,*” Emory University School of Medicine, 2001

***Faculty Advisor,*** Lisa Bernstein, “*Sexual Practices and Knowledge of HIV Risk Among Older Women in an Inner-City Primary Care Clinic,*” Emory University School of Medicine, 2000

## Grants

### Current Support

*Heart Matters: Collaborate and Leverage Evidence in an African American Rural Network to Implement Risk Reduction Strategies for CVD (Heart Matters: Co-Learn to Reduce CVD)*

Role: Co-Principal Investigator

Agency: NIH, Grant #1R01HL157255-01, 8/20/21-7/2026

Guided by the Consolidated Framework for Implementation Research (CFIR), we aim to study the implementation and effectiveness of the Heart Matters EBP by scaling it in five rural eastern NC counties heavily populated by African Americans with high CVD burden.

*RADx-UP CDCC*

Role: UNC Subcontract PI (PI: Cohen-Wolkowicz)

Agency: Duke University/NIH, Grant # 1U24MD016258-01, 09/2020-8/2024

Using a community-centered approach, we will establish an effective, flexible, participatory, and sustainable CDCC that will serve as the infrastructure to maximize the community impact of projects in the RADx-UP consortia.

*THE HARMONY Study: A culturally-relevant, randomized-controlled, stress management intervention to reduce cardiometabolic risk in African American women.*

Role: Co-Investigator

Agency: NIMHD, Grant # 1R01MD015388-01A1, 07/2020-06/2025

The HARMONY study will test the effects of a culturally-tailored mindfulness self-management intervention on sustained improvements in healthy eating and exercise through improved mindful stress management, self-regulation, and self-efficacy in overweight African American women at risk for chronic cardiometabolic illness.

*Implementation of EMR-Integrated Referrals to Link Clinical and Community Services to Reduce Health Inequity*

Role: Co-Principal Investigator

Agency: NIH, Grant # 1R01HL150909 -01A1, 01/2020-12/2023

This research addresses a critical gap in the literature by studying the implementation and impact of integrating data on health promoting community resources within the EHR, via CommunityRx – a digital solution that links patients with community resources – to improve cardiometabolic health in high risk rural African American patients. Our long-term goal is to identify scalable interventions to improve cardiometabolic health that leverage existing community assets. Our overall objective is to demonstrate the feasibility and impact of referral to community health promoting resources in a rural community health system.

*Mentoring Multidisciplinary Global HIV Patient-Oriented Research*

Role: Scientific Advisor (PI: Tucker)

Agency: NIH/NIAID, Grant #1K24 AI143471-01, 01/2019-12/2023

The goal of this mid-career development award is to build capacity for high-quality HIV prevention research in global settings.

*NC Translational and Clinical Sciences (TraCS) Institute*

Role: Deputy Director and Core Director (PIs: Buse and Carey)

Agency: NIH/NCRR, Grant # UL1 TR002489 01 03, 09/2013 – 02/2022

UNC Clinical and Translational Science Award

The North Carolina Translational and Clinical Sciences Institute (TraCS) is the integrated hub of the NIH Clinical and Translational Science Awards (CTSA) program at the University of North Carolina at Chapel Hill (UNC). Over the next five years, we will apply our expertise and infrastructure to support clinical and translational research, to advance health care for North Carolinians and the national goals of NCATS.

*Mentoring in Community-Engaged Approaches to Address CVD Disparities*

Role: Principal Investigator

Agency: NIH/NHLBI, Grant# K24 HL 105493-06, 09/2010-12/2020

This career development award gives Dr. Corbie-Smith the dedicated time to focus on patient-oriented research in cardiovascular disease prevention, and recruit and mentor some of the brightest young scientists at UNC into healthcare disparities research.

*RWJF Clinical Scholars: Wicked Problems Culture of Health Engagement and Leadership for Inter-Professional Teams.*

Role: Co-Principal Investigator

Agency: Robert Wood Johnson Foundation, Grant #78005, 11/2015-10/2021

The University of North Carolina at Chapel Hill, in collaboration with the Community-Campus Partnerships for Health and AcademyHealth is establishing the New Clinical Scholars and the Interdisciplinary Research Leaders Programs. Our approach to the New Clinical Scholars Program provides an unprecedented opportunity to train and support emerging clinical leaders to achieve the Foundation's vision of a culture of health. We propose an innovative and completely re-conceptualized approach to significantly expanding the leadership, public health, "hard skills," and intellectual breadth of enrolled interdisciplinary Fellows, all focused towards maximizing their impact on creating a culture of health through project-focused learning. The Interdisciplinary Leaders Program is designed around mutual respect and value for the diverse roles that academic and community partners bring to a partnership designed to create positive impact and measurable outcomes.

## **Completed Research Support**

*North Carolina Clinical Genomic Evaluation by Next gen Exome Sequencing 2*

Role: Investigator (PI: Berg)

Agency: NIH/NHGRI, Grant # U01-HG006487, 06/2018 – 05/2021

The goal of this grant is to address several key issues in the clinical application of exome sequencing, including the diagnostic yield when applying WES in diverse clinical scenarios, optimal approaches to dealing with secondary findings, the informed consent process, and responses of patients and families to genomic information.

*Reducing Risk of Cardiovascular Disease Risk Factors in Rural Communities in NC*

Role: Co-Investigator

Agency: NIH/NHLBI, Grant#: 1-R01-HL120690-01, 03/2014-02/2020

The proposed study will address this gap in the literature by determining the feasibility and efficacy of adapting EBIs to consider the social and physical environment important in rural African American communities and determining the acceptability of mobile technology in these communities to support behavior change. The proposed study is built on the strong foundation of Project GRACE's 8-year history of designing and testing interventions using a community-based participatory research (CBPR) approach, and individual and collaborative expertise in community-based CVD outreach, service and research.

*Identifying Local Strategies to Build Resilient Neighborhoods and Mitigate the Effects of Gun Violence*

Role: Co-Principal Investigator

Agency: NIH/Yale University Subcontract, Grant # M17A12612, 09/2016 -05/2019

The goal of this proposal is to evaluate an intervention that aims to prevent gun violence and mitigate its effects in high-risk communities by building community resilience. By focusing on the levers of engagement and self-sufficiency, we will strengthen the core components of social cohesion and collective efficacy in neighborhoods with high levels of gun violence.

*Re-Engaging Ethics – Ethical Issues in Engaged Research*

Role: Principal Investigator

Agency: Greenwall Foundation, 01/2016-12/2017

In developed and ascending nations there is growing interest in engaging communities, patients and stakeholders as partners in the process of research. This emerging approach to common research designs goes by a variety of names, among them, patient centered outcomes research, community-based research, participatory research. One umbrella term, engaged scholarship, underscores the concept that those who are to be researched are now engaged in the conduct of research. Our goal is to gather a diverse set of stakeholders in a dialogue about the unique ethical issues that arise in engaged research. A key outcome of this meeting will be to make and disseminate recommendations for review and conduct of this emerging scientific approach to public health and biomedical research audiences in the peer reviewed literature as well as to community leaders through other dissemination products.

*NPRM for Revisions to the Common Rule: A proposal to the Greenwall Foundation*

Role: Principal Investigator

Agency: Greenwall Foundation, 11/2015-02/2016

The proposed revisions to the Common Rule include efforts to streamline IRB review, increase the relevance of the process of informed consent and use as background the existing guiding principles of beneficence, respect for persons and justice. We propose to review, analyze the propose policy changes and publish at least one manuscript that makes recommendations to advance the principle of justice in research as it pertains to health equity in research.

*Preconception e-Intervention to Reduce Infant Mortality Due to Maternal Obesity*

Role: Investigator

Agency: NIDDK, Grant#: R21DK095189-01A1, 04/2013-03/2018

Overweight and obesity have reached epidemic proportions and contribute to a vicious cycle of diabetes, cardiovascular disease (CVD) in women and adverse birth outcomes their offspring. Women who are overweight/obese at conception are at risk for gestational diabetes (i.e.diabetes

of pregnancy), postpartum weight retention, type 2 diabetes and CVD in the years after delivery.<sup>1</sup> African American women share a disproportionate burden of overweight/obesity and the downstream consequences of this disease. Of the 4 million women who become pregnant each year in the US, over 60% are overweight or obese. African American women who are considering pregnancy should benefit from behavioral interventions (Diabetes Prevention Program, PREMIER), proven effective for weight loss and glucose control in general populations, but there continues to be a need to test the effectiveness in underserved populations and during this critical period of the woman's lifespan. We propose building on our experiences with First WInD to test the effectiveness of a theory-driven, provider-supported, preconception intervention.

*Lung Cancer Surgery: Decisions Against Life Saving Care – The Intervention*

Role: Co-Investigator

Agency: American Cancer Society, Grant#: RSG-05-217-05-CPPB, 07/2011-06/2016

This American Cancer Society sponsored study is designed to use a health literacy and culturally appropriate communication intervention for patients and electronic data tools with data feedback for providers to optimize surgical treatment for early stage lung cancer for all patients and to reduce the surgical gap between African-American and white lung cancer patients.

*North Carolina Clinical Genomic Evaluation by NextGen Exome Sequencing*

Role: Principle Investigator

Agency: NIH/NHGRI, Grant#: 1U01HG006487-01, 12/2011-11/2015

The aims of this U01 are to evaluate the use and performance of WES as a diagnostic tool; to Evaluate the occurrence, use, and impact of incidental WES information; to develop practical, ethical, and clinically-oriented mechanisms to facilitate interpretation, management, reporting and patient decision-making about WES data; and to apply WES in medically underserved groups to explore special opportunities and challenges to the broad implementation of clinical WES.

*Mentoring in Community Influences on CVD Risk*

Role: Principal Investigator

Agency: NIH/NHLBI, Grant#: K24 HL 105493-01, 09/2010-07/2015

This career development award gives Dr. Corbie-Smith the dedicated time to focus on patient-oriented research in cardiovascular disease prevention, and recruit and mentor some of the brightest young scientists at UNC into healthcare disparities research.

*Carolina Community Network Center to Reduce Cancer Health Disparities (CCN II)*

Role: Co-Investigator

Agency: NCI, Grant#: 1-U54-CA153602-01, 09/2010–09/2015

The Carolina Community Network Center to Reduce Cancer Health Disparities (CCN II) will leverage the myriad successes of CCN I and continue to promote the community-based participatory research (CBPR) approach in adhering to the established mission of reducing cancer health disparities among adult African Americans in North Carolina. CCN II will be based at the Lineberger Comprehensive Cancer Center at the University of North Carolina at Chapel Hill and will provide a three-pronged research infrastructure that includes: Outreach, Research, and Training.

*Carolina-Shaw Comprehensive NCMHD Research Center*

Role: Co-Investigator (PI: Godley)

Agency: NIH/NCMHD, Grant #: 2 P60 MD000244-08, 09/2007-05/2015

The goal of the Carolina-Shaw Comprehensive NCMHD Research Center is to take advantage of the existing close relationship between Shaw University and UNC by combining the research and teaching resources at UNC with Shaw University's expertise in strengthening African-American communities and training minority leaders. This expanded inter-university partnership will jointly conduct cutting edge health disparities research that leverages the infrastructure developed during the previous grant period including the DC2 church network and the Shaw University Center for Survey Research. The focus of this Center is to eliminate chronic disease health disparities between whites and Blacks. The thematic focus of the proposed Center will be to serve as a research incubator that will conduct innovative minority health research among adult African-American populations in North Carolina.

*Project EAST: Increasing Access to HIV Trials for Rural Minorities*

Role: Principal Investigator

Agency: NIH/NINR

Grant #: 1R01NR010204-04, 09/2006-06/2011

This study seeks to gain a better understanding of the individual and community influences on research participation in HIV clinical trials which will result in innovative, theory based, culturally responsive interventions to increase minority representation.

*Project GRACE: A Participatory Approach to Address Health Disparities*

Role: Principal Investigator

Agency: NIH/National Center for Minority Health and Health Disparities

Grant #: 1 R24 MD001671-01, 09/2005-06/2008

Project GRACE uses a community-based participatory research approach to partnership development and intervention design. The long-term goal is the development of feasible and sustainable interventions that reduce the spread of HIV.

*Project GRACE: A Participatory Approach to Address Health Disparities*

Role: Principal Investigator

Agency: NIH/National Center for Minority Health and Health Disparities

Grant #: R24 MD001671-05, 09/2005-02/2014

Project GRACE uses a community-based participatory research approach to partnership development and intervention design to expand, strengthen and evaluate the development of the Project GRACE Consortium; to identify community needs and assets in target counties to support the development of multilevel interventions to address individual and environmental/contextual factors that influence the spread of HIV; to define culturally appropriate multilevel interventions; and to test the feasibility of proposed methods to address both individual and environmental/contextual determinants of the spread of HIV.

*Center for Genomics and Society*

Role: Co-Investigator (PI: Henderson)

Agency: NIH/NHGRI, Grant #: 1 P50 HG004488-03, 09/2007-04/2013

The UNC-CH Center for Genomics and Society focuses on newly emerging ethical, legal and social implications (ELSI) of genomics research as the field shifts its focus from small efforts to those on a much larger scale. We will conduct research projects on ELSI issues; offer a research ethics consultation service for genomic researchers; facilitate policy initiatives that are informed by our research findings; and provide training, education, and community engagement particularly focused on underrepresented minorities to foster continued ELSI research on large-scale genomics.

*Minority Recruitment Core, Carolina-Shaw Partnership for the Elimination of Health Disparities*

Role: Co-Investigator/Core Director (PI: Godley)

Agency: NIH/National Center on Minority Health and Health Disparities

Grant # 1P60 MD000244, 10/2002-09/2007

The goal of this project is to work with Black churches to develop and pilot test a registry of minority community members who are interested in being contacted about future research participation in cancer studies; and to engage in outreach to the scientific community to identify and address investigator specific barriers to minority recruitment.

*Reducing Barriers to Symptom Management and Palliative Care*

Role: Co-Investigator (PI: Hanson)

Agency: NIH/NCI, Grant #: 1R21 NR09785-01, 07/2005-06/2007

The objective of this study is to improve treatment for pain and suffering for African American patients with cancer. An interdisciplinary group of faculty with expertise in palliative care and in community-based research will design and implement a Palliative Care Lay Health Advisor Program in a network of African American churches.

*Learning about Research in North Carolina (LeARN)*

Role: Principal Investigator

Agency: NIH/Human Genome Research Institute/ELSI

Grant # R01 HG002830, 06/2003-05/2007

The goal of this project is to conduct a telephone survey to understand participants' views of genetic variation research and their perceptions about the causes of colorectal cancer.

*Research Supplement for Underrepresented Minorities to Learning about Research in North Carolina*

Role: Principal Investigator/Mentor

Agency: NIH/NHGRI, Grant #: 3 R01 HG002830-03S1, 07/2005-05/2007

The goal of the supplement is to have Dr. Bussey-Jones use the mentored research experience and other proposed activities to acquire new skills and knowledge that will enable her to prepare an individual mentored career development award. Dr. Corbie-Smith will be Dr. Bussey-Jones' primary research mentor.

*Overcoming Barriers to African American Participation in Research*

Role: Principal Investigator

Agency: Robert Wood Johnson Foundation

Type: Minority Medical Faculty Development Program; 01/2001-06/2006

Grant #: 038407 (PI: Corbie-Smith)

The goal was to assess knowledge, attitudes, beliefs and practices of investigators toward recruitment and retention of African Americans in clinical research, and design an intervention to increase participation of African Americans in research.

*Barriers to African American Participation in Research*

Role: Principal Investigator

Agency: National Heart, Lung, Blood Institute

Type: Mentored Research Scientist Career Development Award; 09/1999-01/2005

Grant #: K01 HL04039 (PI: Corbie-Smith)

The goals of this project were to define the barriers to participation in clinical trials faced by African American patients and to assess the knowledge, attitudes, beliefs and practices of investigators toward recruitment and retention of African Americans in clinical research.

*End-of-Life Care in the African-American Community: Exploring Hospice Use*

Role: Principal Investigator/Mentor (Co-PI: Reynolds)

Agency: UNC Program on Ethnicity, Culture and Health Outcomes

Type: Pilot study grant; 12/2002-11/2003

The goal of this project was to define the barriers and facilitators to use of hospice care among African Americans.

*Assessment of Cross-Cultural Medicine Curriculum and its Impact on Students' Level of Knowledge on Cultural Competence*

Role: Co-Investigator (PI: Genao)

Agency: Emory Medical Care Foundation

Type: Intramural Research; 11/2001-10/2003, Grant #: 00005

The goal of this project was to conduct a randomized control trial of a educational intervention to improve the knowledge of cross cultural issues in medicine.

*Influences on Vaccine Use in Elderly African-Americans*

Role: Principal Investigator of Pilot Study (PI: Mutran)

Agency: National Institute on Aging

Type: Pilot study grant; 09/2001-06/2003, Grant # of Parent Study: NR04716

The goal was to define the barriers and facilitators to African American elders' use of influenza vaccines.

*Sexual Practices and Knowledge of HIV Risk among Older Women in an Inner-City Primary Care Clinic*

Role: Co-Investigator (PI: Bernstein)

Agency: Emory Medical Care Foundation

Type: Intramural Research; 08/2001-07/2002

Grant #: 00002

The goals of this project were to describe knowledge, perceived and actual risk of HIV among postmenopausal African American women seeking care in a public hospital primary care clinic.

*An Assessment of the Acceptability of a Rapid HIV Test in an Underserved Population*

Role: Co-Investigator (PI: del Rio)  
Agency: Centers for Disease Control and Prevention  
Type: Research Grant; 09/1999-09/2001  
Grant #: UR3/CCU416463-02-02

The goals of this project were to explore the attitudes and beliefs of African Americans toward HIV testing and to determine whether an opt-out strategy of rapid vs. standard HIV testing would be feasible in an urban hospital.

#### *Women's Health Initiative*

Role: Co-Investigator (PI: McNagny)  
Agency: National Institutes of Health  
Type: NIH Contract; 12/1997-06/2000  
Grant #: N01-WH-3211

Provided guidance in the recruitment, retention and adherence of participants at the Atlanta site for this longitudinal cohort and national multi-center clinical trial aimed at understanding the role of estrogen therapy, low fat diet and calcium/Vitamin D for multiple outcomes in women.

#### *Women's Estrogen Stroke Trial*

Role: Co-Investigator (PI: Horwitz)  
Agency: NINDS/NIH  
Type: Minority Investigator supplement to R01; 1997-1999  
Grant #: R01-N531251

Explored the clinical, sociodemographic and psychosocial determinants of recruitment and retention into the Women's Estrogen Stroke Trial (WEST), a randomized, double blind, placebo controlled trial designed to test whether estrogen treatment would reduce the risk of death or recurrent stroke in postmenopausal women with established cerebrovascular disease

#### *Factors Associated with Voluntary Participation of Minorities in Clinical Trials*

Role: Principal Investigator  
Agency: Emory Medical Care Foundation, Type: Pilot project grant; 1996-1998  
The goal of this project was to use qualitative research methods to explore understanding of and barriers to African American participation in research.
