EPIC Classes Pre-Learning Course Work

Don’t forget your online EPIC course work! It must be completed before attending classes.

1) Begin by logging into citrix and choosing LMS. I found this worked the best using IE, not Firefox.

2) Log in with your UNCH username and password (same one you used for scheduling classes)
3) You should see the LMS homepage.

4) Drop down the options under Learn and chose Training Schedule.
5) You should see a list of Online courses. Make sure **View** in the upper right corner is set to **Current Activities**: Click START and enjoy! (I found headphones to be a nice option)
