

Thank you for your referral to UNC Health Care. We would like to invite your practice to sign up to UNC CareLink for future referrals and online patient results. Please see information below to create a UNC CareLink account today.

## What is UNC CareLink?

- Enables referring providers and staff to easily access patient information and follow the progress of care delivered at UNC Health Care
- Web-based portal for community providers and clinical staff
- Provides access to view all medical records and ancillary services for patients referred by your practice

## What are the benefits?

Shared medical record with community practices and staff

Enhances communication and keeps referring practices “in the loop”

Provides access to scheduled appointments, medications, allergies and outpatient and inpatient notes (including admissions, discharges and emergency services)

Helps with CMS Meaningful Use and patient-centered medical home efforts

Enables providers to send secure messages to UNC providers regarding their patient’s care and access an unassigned patient’s medical record

Links to provider information at [findadoc.unchealthcare.org](http://findadoc.unchealthcare.org)

Offers online referrals for outpatient and ancillary services

## How to enroll?

- Enroll online at [unccarelink.org](http://unccarelink.org)
