

We would appreciate your participation in helping sponsor the **27th Annual TCRB Meeting** to be held at the National Institute of Environmental Sciences (NIEHS) in Research Triangle Park on **Saturday, February 10, 2018**. The 2018 program agenda is published on our website (www.med.unc.edu/tcrb).

The TCRB meeting brings together regional scientists who conduct basic, translational, and clinical research in reproduction and male and female reproductive tract development and disease. We expect attendance from over 100 scientists, fellows, and students from area universities and institutions such as UNC-Chapel Hill, NCSU, Duke, NCCU, East Carolina University, Wake Forest University, UNC-Greensboro, Appalachian State University, NIEHS, the EPA, and RTI International. The conference highlights the depth of reproductive science being conducted in the Triangle and surrounding areas. Scientists will present their work and awards will be given for the best trainee presentations. This year our confirmed keynote speaker is Dr. Jon Oatley, who is the director of the Center for Reproductive Biology at Washington State University.

The Research Triangle area of NC has a large concentration of nationally- and internationally-recognized reproductive scientists along with numerous young trainees and fellows committed to a career in reproduction studying reproductive health. Sponsorship of this meeting is a wonderful way to support science and research in the area and to highlight your company's products and services. In addition to presentations, there will be many opportunities to chat and network during the continental breakfast, breaks, poster sessions, and lunch. This presents an opportunity for your company to meet attendees, to learn about their interests and needs, and to educate them about your products and services.

A supporting sponsorship is available for \$250, and these funds will help us keep registration costs low while covering the costs of the meeting such as meals, and travel and lodging for invited speakers. All sponsors will be acknowledged during the welcome address, in the program booklet, and on the website. Your sponsorship will cover breakfast, coffee breaks, and lunch for one person, as well as a table for exhibiting products and literature.

The link for registration is found on the front page of the TCRB website (www.med.unc.edu/tcrb). Please provide us with a high-resolution version of your company logo (at least 300 dpi), and kindly let me know if you have any additional questions.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Chris Geyer".

Chris Geyer, Ph.D.
Chair, TCRB Steering Committee
Associate Professor, Department of Anatomy & Cell Biology
