

The logo features a stylized triangle with a pink and white background, containing a yellow sun-like shape and blue dots. To the right of the triangle, the text "Triangle Consortium For Reproductive Biology" is written in white on a dark blue background.

# Triangle Consortium For Reproductive Biology

We invite your participation and support at the **28<sup>th</sup> Annual TCRB Meeting** to be held at the National Institute of Environmental Sciences (NIEHS) in Research Triangle Park on **Saturday, February 9, 2019.**

**Sponsorship of this meeting is a wonderful way to support science and research in the area and to highlight your company's products and services.** Your support will help us keep trainee registration costs low.

The Research Triangle area of NC has a large concentration of nationally- and internationally-recognized reproductive scientists along with numerous fellows, residents, postdocs, and students. We expect attendance from over 100 scientists from area universities and institutions such as UNC-Chapel Hill, NCSU, Duke, NCCU, College of William & Mary, East Carolina University, Wake Forest University, UNC-Greensboro, Appalachian State University, NIEHS, the EPA, and RTI International.

The TCRB meeting highlights the depth of reproductive science research in the area and brings together regional scientists who conduct basic, translational, and clinical research on all aspects of male and female reproductive sciences and disease. Scientists will present their work and awards will be given for the best trainee presentations. This year our confirmed keynote speaker is Paula Cohen, PhD, who is the director of the Center for Reproductive Genomics at Cornell University. The full 2019 program agenda will be published on our website ([www.tcrb.org](http://www.tcrb.org)).

Please contact us for supporting sponsorships of specific program items. Registration and attendance for up to two company representatives is \$300 and includes meals and a table for exhibiting products and literature. All sponsors and exhibitors will be acknowledged during the welcome address, in the program booklet, and on the website. You will be able to register on the TCRB website ([www.tcrb.org](http://www.tcrb.org)). At the event, there will be many opportunities to chat and network during the continental breakfast, breaks, poster sessions, and lunch. This presents an opportunity for your company to meet attendees, to learn about their interests and needs, and to educate them about your products and services.

We appreciate your support of local trainees and scientists. Please let us know if you have any additional questions.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Chris Geyer".

Chris Geyer, Ph.D.  
Chair, TCRB Steering Committee  
Associate Professor, Department of Anatomy & Cell Biology  
Brody School of Medicine at East Carolina University
