

Brier Creek Elementary 4th Grade Science Fair

9801 Brier Creek Pkwy, Raleigh, NC 27617
Feb 4, 6, 11, 13 - 9:30-11:30am

Please arrive a few minutes early so that we can all meet in front of the school before heading in to the main office. Your GPS will lead you to the side of the school facing Brier Creek Pkwy, but the visitor entrance is one block back on Bruckhaus St. From Bruckhaus St. you can either park along the street or enter the school parking lot (see map below).

The students will be organized into small groups of 2-3 to work on already approved grade appropriate projects of their selection. They need you to bring your enthusiasm for science to help them design the experiment, analyze the results, and teach them the scientific method. Yay science!

Sign up sheet for dates can be found [HERE](#). More details can be found on our website below.
