Career Exploration in Pediatric Cardiology	PEDS 263	Charlotte	2 week ele	Permission Required

Campus check-ins:

- Asheville: check in with fourth-year students, working on transition to residency, course reviews
- Charlotte: creating new courses
- Greensboro: no updates
- Raleigh: new critical care electives
- Wilmington: looking into new course opportunities (ie anesthesia)

Student updates/concerns: in block 5, excited about applying soon

- Only concern: would like an email sent to our class with information on registering for blocks 12 and 14 because there's been some confusion on that

Presentation highlighting Deborah Allen, from Celeste Colcord and Augustus Parker (Charlotte campus)

Grade appeal policy:

- Continue to send out the message that the orientation module needs to be completed before 8AM on the first day of the rotation to qualify for honors.
- Dr. Chuang needs to be included in all grade appeal processes

Dr. Sellers and Dr. Jordan: Science of Medicine accelerated track option with earlier dates to get things done (ie literature review oral presentation) to get them on ERAS applications

Course reviews for AI's and CC's
